### KAMIN WILL RECOVER FROM GUN WOUNDS

Arraignment on a Larceny  
Charge Expected  
Soon

### IS IDENTIFIED AS BURLINGTON BANDIT

Certainly that Frank Kamin, 27, a suspect in the Burlington Melnhart State bank robbery, will recover from the bullet wounds received as he was fleeing from Burlington, has led authorities to arrange that he be taken to the Racine county jail as soon as he is able to be released from St. Catharine's hospital. His arraignment on the charge of larceny probably will follow.

Two other suspects, Reinhold and Michael Flecker, when arraigned in Racine Tuesday on the charges of armed robbery and larceny of \$6,000, pleaded not guilty. They are being held for preliminary hearings on May 28 and 29, respectively, with bonds of \$20,000 and \$12,000.

Take About \$6,000.

The hold-up occurred at 12:45 Friday, May 15. The president and two clerks were present when the bandits entered the bank, and covered them with their guns. After stuffing what currency they could find in a bag the robbers fled to an automobile where an accomplice was waiting with the motor running.

As they began their flight, they were seen by Policeman Schenning, who discharged his gun into the car, but failed to stop them. Later a blood-stained car, identified as one stolen from Pasadena Gardens, was found at Slades' Corners, from whence the robbers continued in a waiting car.

Find Two in Twin Lakes Cottage. Immediately after the hold-up, Kenosha county officials were notified and deputies sent to search. Less than three hours later Frank Kamin and Reinhold Flecker were discovered hiding in a Twin Lakes cottage, Kamin suffering from a shot wound in the back. Kamin refused to tell how he had received the wounds, but authorities declare that the bullet holes in a mask found in the abandoned car correspond with the wound in Kamin's neck.

Michael Flecker was picked up in Chicago by officials and has been held. Mr. and Mrs. Walter Ellis, of Burlington, sister and brother-in-law of Kamin, and two brothers of Kamin, Edward and Walter, were found at the home of the mother of the Kamin family in Chicago, but were released upon verification of their statement that they had left Burlington in the morning.

Have Been Suspected Before.

It is believed that Kamin and his "gang" have been implicated in several bank robberies during the past few months. Partial identification of Flecker as one of the Bristol State bank robbers has been made by the bank officials, while at the time of the Silver Lake bank robbery Kamin was reported to have been involved.

Kamin began his crooked career in Antioch, when, after being employed as teller of the State bank for four years, he was found short \$2,300 in bank funds. As he was seemingly repentant, and because of his youth and previous good record, bank officials made up the loss, and did not bring any charge against him.

Conclusive proof against them is seen in the fact that the general description of the Melnhart bank robbers tallies with the appearance of Kamin and Reinhold Flecker.

Kamin's wounds and discovery of equal open wound poppers joining equal same material as those found in Flecker's home provide further reasons for linking them with the robbery.

### H. S. BOY WINS SECOND IN STATE VIOLIN CONTEST

John Tollalsha, from Allendale, a junior at the Antioch high school, was awarded second place in the Illinois state championship contest for violinists, held at Normal Friday, May 15. He was accompanied on the piano by Miss Mildred Robinson.

John is instructed in violin by W. G. Bragg. For several years he has shown outstanding talent, having been given prominent position in the state orchestra for two years, and last year was recommended by Director Raymond Dvorak to attend the National Orchestra camp at Interlochen, Mich. He will study there this summer.

Mr. and Mrs. Edwin Reutner visited Mr. and Mrs. E. J. Suhr, Berwyn, Ill., Sunday.

### Poor Funds To Be Raised By County Legion Committee

Local Post Is Host to 200  
Delegates at District  
Meeting

Appointment of a committee to raise funds to provide the necessities of life to thirty destitute families in the county actually in want was the chief outcome of the meeting of the Lake county council of the Legion held at Pasadena Gardens Friday night, with the Antioch unit as host.

The Bogardus act fund, furnished by the county board, has been drawn on heavily to aid families crippled by the depression during the past year, and will not be replenished until the board takes action in June.

Charles C. Kaphuhl, county commander, has instructed the committee to work with Brad West, Bogardus act officer of the county American Legion, in investigating and raising enough funds to last until June 15, to take care of the veterans of all wars. The 200 delegates present were served with plate lunches and entertained by a peppy orchestra, and were sincere in declaring the event to be one of the best district meetings ever attended.

### Short Detour At Lake Villa Is Not Practical, Lamb Says

The proposed short detour around the construction work of the Soo Line viaduct on Route 21 at Lake Villa will not be built, according to Supervisor William A. Rosling, who has been trying to induce the state highway department to build and maintain the detour for the benefit of business firms and residents along the route north of Lake Villa.

Rosling today exhibited a letter from District Engineer G. N. Lamb, written to County Superintendent of Highways R. M. Lobdell, in which the proposition is turned down cold.

"I do not feel justified in recommending the construction of a temporary gravel road around the construction of the grade separation on Route 21 at Lake Villa," writes Mr. Lamb.

Expense Not Justified.

"The probable length of time such a temporary road could be used does not in my opinion justify the expense in view of the fact that two very good detours are to be had. One all paved detour into Antioch adds only about two miles to through traffic. Traffic to the lakes west of Antioch is inconvenienced little, if any."

"The gravel road detour around Lake Villa will be maintained by this department."

"Should a temporary road be built it could be used only until the grading contractor begins work on the fill approaches. The contract for this work has been awarded and the contractor is anxious to begin work as soon as the construction of the abutments has progressed sufficiently."

### Firemen Promptly Extinguish Fire in Antler's Hotel

A small roof fire, caused by sparks issuing from the kitchen chimney of the Antler's hotel about 6 o'clock Saturday afternoon, was immediately extinguished by the Antioch fire department before any serious damage had been done. The fire was over the hotel dining room.

### LAW ENFORCEMENT DIFFICULT IN LAKE COUNTY, SMITH SAYS

Criminal Lawyers Obstruct  
Justice, Attorney Tells  
Men's Club

The professional "criminal" lawyer who is keen to take advantage of every technicality of law in making an easy open road for the criminal, the apathy of citizens regarding jury service, and the jury system itself, are largely responsible for the difficulty attending the enforcement of law and the obtaining convictions of the guilty in Lake County, Col. A. V. Smith, state's attorney of Lake county, told the Men's Club assembled in the Antioch Methodist church for the last meeting of the season Friday night.

"Lake county has absolutely nothing to do with many of the crimes committed within its borders," Colonel Smith declared. "This county many times just happens to be the battleground for gang wars started in Chicago, and the Lake county state's attorney's office is asked to apprehend and convict the guilty ones."

"During my incumbency in office the business has grown to such a volume that the services of five assistants are required, one assistant giving an entire day each week to the mental and delinquent cases heard in the county court."

Colonel Smith's address was enlightening, and proved of great interest to those present. He was given a vote of thanks.

Chicago Man Speaks.

E. J. Gnaedinger, of Chicago, president of the Channel Lake Country Club, came before the group with a proposition that should prove of genuine interest to Antioch people, when he announced that directors of the club had agreed to change the name of the club to the "Antioch Country Club" if sufficient local membership could be interested. The plan met with approval and steps will be taken to bring the project to realization, it is said.

Tentative plans for the formation of a Salvation Army local board will be made at once, it was announced by Rev. Philip T. Bohl, following an appeal made before the club by Mrs. Mary T. Wiseman, appeal director for the Army. Rev. Bohl accepted the temporary chairmanship, pending the organization.

### GARDEN CLUB OF LAKE FOREST TO EXHIBIT FLOWERS

The Lake Forest Garden Club Flower Show is to take place May 30 and 31 at the Service Buildings of Mrs. Rockefeller McCormick's estate in Lake Forest.

The committee in charge of arrangements is as follows: Chairwoman, Mrs. Farwell Winston; Mrs. Lester Armour, Mrs. Philip Armour, Mrs. Albert B. Dick Jr., Mrs. Donald Douglas, Mrs. DeForest Hulburd, Mrs. Rockefeller McCormick, Mrs. George McLaughlin, Mrs. George McLaughlin Jr., Mrs. Gilbert E. Porter, and Mrs. Earle Reynolds.

Mrs. George Rhodes and her sister, Miss Winifred Greene, were visited by Mr. and Mrs. T. G. Rhodes, of Oak Park, Mrs. Harry Zoller, of Austin, Ill., and Mr. and Mrs. Harland Farfur, of Oak Park, Sunday.

### ANTIOCH MOURNS DEATH OF ONE OF FINEST CITIZENS

Host of Friends Attend the  
Funeral Services for  
E. B. Williams

Services for Antioch's "fine old man," Edgar Booth Williams, were held Sunday afternoon at the M. E. church in the presence of throngs of friends, who deeply regret his loss.

The church was laden with flowers, the last tokens of regard from his many friends. An inspiring delivery was made by Dr. Bradley, pastor of the People's church in Chicago, in which he spoke of the example of fine Christian living, goodness, and love of fellowmen rarely equalled which Mr. Williams leaves for others to attempt to emulate. Solo numbers were sung by Mrs. Louise Gilbert.

The pallbearers were Arthur Bock, Charles Lax, Herman Oubon, Frank King, Russell Anderson and S. Boyer Nelson. Honorary pallbearers were Richard Kaye, Addison Felter, Herman Bock, J. C. James, William Oetting and William Ziegler.

Interment is in the Hillside cemetery. State highway policemen and local firemen led the funeral procession.

Was of Old Pioneer Stock.

Edgar Booth Williams was born January 4, 1845, at Bristol, Wis., son of Daniel and Jane Booth Williams, the ninth of eleven children. Daniel Williams came from Stratford, Conn., in 1841. The family was of old pioneer stock, originally from Wales, England. An ancestor, James Booth, was a captain in the Revolutionary army.

In 1850 the family moved to Antioch, Ill., and their old farm forms the northern section of the present town. The country was still in pioneer development and the children traded many miles to school at Liberty Corners, Wis. Indians were a common sight in summer.

Was in Chicago Fire.

At 17, Mr. Williams left for Chicago to seek employment, finding a position as clerk in a grocery store. Later he worked for a while in Cairo, Ill. On his return to Chicago he entered the commission business, on South Water street. It was here he was working, living above the store, when the disastrous fire of 1871 turned Chicago with its proud buildings into smoldering ashes. He barely escaped with his life.

On November 14, 1872, he was married to Mrs. Mathilda Caroline Reese, of Ann Arbor, Mich. They settled in Chicago, where their daughter, Lella Jeanette, was born. A few years later they moved to Antioch, where Mr. Williams entered into the grocery business with his brother, Daniel A. The store which they founded, Williams Brothers, is still in existence. In 1921 Mr. Williams obtained entire control of the store and turned it over to W. R. Williams in partnership with his son, Harold E. Williams, who died shortly after.

Interested in Antioch. Mr. Williams also became interested in banking, being the second president of the Antioch State bank, which position he held until the State bank merged with the Brooks State bank of Antioch.

Mr. Williams took an active interest in the civic affairs of the community, serving for thirty-two years as treasurer and clerk of the Antioch township school board, and for two years as president of the village board, the first man to hold the position.

He was a Mason and one of the charter members of Sequoit lodge, No. 827, A. F. & A. M.

He died May 15, 1931, at Victory Memorial hospital, Waukegan, Ill., having returned from his winter home in Melbourne, Fla., only a few weeks previously, and is survived by his wife, Mathilda, 83, daughter, Mrs. Charles K. Anderson, son, W. R. Williams, granddaughter, Lorraine Anderson, and two great grandchildren, all of Antioch.

### PETTY THEIEVRY AT CHANNEL LAKE HOMES REPORTED

Thief of articles from a number of Channel Lake homes was reported during the past week. Breaking into the garage at the home of John Carlson, the thieves took a posthole digger and a number of garden tools, while at the home of Dr. F. D. Hollenbeck, a Hundo spraying outfit was missing.

Services Will Be  
Held Here Sunday

Largest Senior Class in History of A. T. H. S.  
Plans Class Night

Baccalaureate services for forty prospective high school graduates will be held in the auditorium next Sunday evening at 8 o'clock Standard Time. To these young people solemnly attired in graduation robes, will be given a message by Father Savage, of Wadsworth, who agreed to speak when the Reverend Daniel Frawley found it impossible to be present to give the address.

Services are being held this Sunday instead of next, to avoid crowding too many events into the last few days.

Class Night Thursday. The class is combining its talent into presentable form for class night exercises Thursday evening. This is the one frivolous and informal event of all the graduation activities, when the true class spirit is revealed by the (Continued on page 8)

### ELEMENTARY SCHOOLS WILL COMBINE FOR GRADUATION PROGRAM

Eighth Grade Graduates  
from Nine Schools  
Included

LEGION AWARDS  
TO BE GIVEN

Eighth grade students from nine of the county schools will pass one of the milestones of their lives as they are graduated Tuesday evening, when the schools will combine in the promotion exercises at the high school building at 8 o'clock Standard Time. These schools include Antioch, Bean Hill, Emmons, Cedar Lake, Channel Lake, Grubb, Hickory, Monaville and Oakland.

The chief address of the evening will be given by County Superintendent W. C. Petty. A brief but thoughtful inspiring talk on "Why Go to High School?" will be given by L. O. Bright, principal of the Antioch high school.

The prospective graduates have been preparing together three vocal numbers under the direction of E. V. Jeffers. Further program numbers will be furnished by the Antioch grade school band, pianist and cornetist.

At this time an award will be made by A. Mapleshorpe, representing the local American Legion, to Oliver Grutzmacher and Helen Strang, the boy and girl in the Antioch school ranking highest in the five most important characteristics—honor, courage, scholarship, leadership and service.

Reading circle pins to all graduates completing the reading circle requirements for elementary schools, and perfect attendance pins to all children meriting them will be presented.

### LEGION ARRANGES FOR MEMORIAL DAY SPEAKER

Final details for Memorial Day will be discussed tonight at the regular meeting of the Antioch American Legion post at the village hall. Arrangements for a prominent speaker already have been made, and there is possibility of securing two bands in the line of march. Other details as to the time and the line of march will be decided and published in next week's issue of the News.

### TAXPAYERS WILL LAUNCH QUIZ INTO ROAD BOND SALE

Claim Thousands of Dollars  
in Needless Interest  
Being Paid

WILL ASK VERCOE  
WHO BOUGHT BONDS

Why was the entire issue of \$1,250,000 Lake county highway bonds sold before the money was needed, who were the purchasers and who is paying the interest on the balance of more than one million dollars, are questions uppermost in the minds of members of the Waukegan Taxpayers Association and questions that Supervisor Arthur Vercoe, Highland Park banker and chairman of the finance committee of the Lake county board of supervisors, is expected to answer when officials of the Taxpayers group launch their investigation into the transactions of the committee relating to the too hasty sale of the bonds.

The Taxpayers association claims that the entire bond issue of \$1,250,000 that was approved by voters at the special election held April 29, last year, has been sold and that only \$217,551.62 has been actually spent on construction work, according to R. L. Lobdell, county superintendent of highways. An additional \$270,000 will be needed for this year's work, according to Lobdell.

Meanwhile the county is paying 5 per cent interest on the unpaid balance, which will cost the county an unnecessary expense of approximately \$50,000. R. H. Stripe, president of the Taxpayers association, declares. Supervisor Vercoe will be quizzed regarding the depository of funds collected in road bond issue sales, the Taxpayers declared last night, following a meeting held in the Waukegan city council rooms.

Attempt will be made to have William J. Obee ousted as chairman of the county board, should he be indicted at the hearing of Stripe's mayhem charges Friday.

### Legion Auxiliary Girls Expect Big Sale of Poppies

A poppy in every button hole is the aim of the American Legion auxiliary who are undertaking the work of selling the flowers on Poppy Day, Saturday, May 23, under the direction of Mrs. Evann Kaye and Mrs. John Horan.

These poppies which have been carefully made by war veterans were obtained by Ray Webb, representing the Legion, and the funds derived from their sale will be used for the service and relief funds of the American Legion departments of the state and local units.

The battle fields of France claimed many who never returned; and the country sorrowed. But there were many who did return, broken in spirit and body, their useful work on this earth ended. The red poppy has come, after twelve years, to be the national symbol of the dependent state of these disabled veterans.

A poppy in your buttonhole will help them!

### FLASHLIGHT SIGNALS ORDERED FOR SOO R.R. CROSSING AT ANTIOCH

(Antioch News Special Service) Springfield, Ill.—To provide further protection for the traveling public, the Illinois commerce commission has ordered the Minneapolis, St. Paul & Sault Ste. Marie railroad to substitute automatic flashlight signals with cross buck signs for the present wig-wag signal protection at the crossing of Fox River Road with the railroad near Antioch.

Full 24-hour protection for traffic passing over the crossing was ordered by the commission.

Seven persons have met death at this crossing during the last few months, the latest tragedy being on April 23 when five Libertyville youths lost their lives. The coroner's jury investigating the fatal accident urged the installing of better safety devices.

Mrs. William Van der Linde and Mrs. Burt Anderson spent Tuesday in Waukegan.

## EDGAR BOOTH WILLIAMS

It is more than a mere accomplishment to live a long, useful and honorable life, retaining the friends of youth, and carrying into the evening of life the confidence, esteem and respect begotten in the more active years of living.

Such is the life story of Edgar Booth Williams, "Antioch's grand old man," who was laid to rest here Sunday amidst a profusion of floral tributes and in the presence of a throng who attended the obsequies. A noted pastor, the Reverend Preston Bradley, of Chicago, long an intimate friend of "E. B.," spoke of the fine example of living left as a heritage by his deceased friend.

All these are merely incidents in the closing scenes of life. The real monument is the life itself.

A true Christian gentleman, who exemplified the fine art of living, has passed on.

## UP IT GOES

Ten states have increased their gasoline tax rates so far this year, and others are contemplating similar moves. At present the average tax rate for the nation is 3.98 cents per gallon and it may exceed 4 cents before the dawn of 1932.

However, it is interesting to note that the new high rates went into effect in the face of constantly growing opposition. In North Dakota, for example, the voters defeated a projected increase on a referendum proposal in November—only to have the legislature pass it later on. In Washington, where the rate was jacked up two cents a gallon, motorists are busy seeking a referendum, and a 1-cent increase in Maine was passed only after a long and bitter battle in the legislature.

It may be that the tendency toward higher rates will be a good thing after all—the higher the tax goes, the sooner the public will take action. "Worm motorist" is rapidly reaching the point where he will turn, as 5 and 6-cent tax rates stare him in the face.

## FAKE CURES

As President Hoover recently pointed out, tax reduction must be a vital element in any program for industrial and economic stabilization.

This is not to say that high taxes alone were responsible for the world-wide depression. Many divergent forces were to blame. But it is almost axiomatic that employment and business cannot return to normal, if they are burdened with a staggering and constantly growing weight of taxation.

It is unfortunate that in times of stress, many foolish, though well-meant, panaceas are offered and sometimes are tried. All of them, in one way or another, cost the people money, and sometimes, for a single experiment, the cost goes into hundreds of millions. The inevitable result is higher taxes. Thus the ostensible cure for depression become a barrier in the path of prosperity.

When government goes in for artificial and expensive economic respirators it almost always does far more harm than good.

## Several Millburn Residents Attend F. Achen Funeral

Mrs. E. A. Martin spent several days at the home of her sister, Mrs. Fred Achen, being called there by the sudden illness and death of Mr. Achen Wednesday. Funeral services were held at the Hansen funeral home in Kenosha Friday, and were attended by several from Millburn. Burial is in Hickory cemetery.

Mr. and Mrs. August Holdridge, of Chicago, spent Thursday at Lewis Bauman's.

William Walker, of Lake Forest, called at the J. S. Denman home Friday.

Bernice Bauman, Ethel McGuire and Lloyd Atwell spent Sunday with Doris Jamison in Milwaukee.

Mrs. Fenlon, Miss Addie Fenlon, of Grayslake, Mr. and Mrs. Robert Erwin, Mr. and Mrs. Roy Edwards and daughters, of Waukegan, were callers at the George Edwards home Sunday.

Mr. and Mrs. Robert Bonner and sons were guests for dinner at the C. E. Bonner home Sunday.

Mrs. Beck returned to her home in Evanston Monday after ten days' visit with her daughter, Mrs. A. H. Pierstorff.

Mr. and Mrs. Carl Peters entertained about thirty relatives from Evanston Sunday.

A game, the final score of which resembled that of the Big Ten league games, was played between the Millburn and Gurnee baseball teams Sunday, ending in a 3-1 victory for Gurnee. Two errors by the Millburn pitcher, Webb, enabled the other team to secure the two winning runs.

## NORTHEASTERN 4-H CLUB MEETS UNDER NEW NAME

The second regular meeting of the Northeastern 4-H club was held Monday evening at 8:30, May 4, at the home of Sam Johnson.

Roy Griffin, the assistant local 4-H club leader, and Albert Herman, the county 4-H club leader, were present.

The former name of the club, "Gill-Gin-Her," was changed because of certain objections, to "Northeastern," this being the most northeastern 4-H club in the state of Illinois.

The program for the season was read by the president, Virgil Shuster, and was adopted by the club. It is to be sent to Albert Herman with an application for the club charter.

Virgil Shuster gave a talk on "Selecting a Dairy Calf." The remainder of the program was taken up in business and filling out the record project books.

Three new members, each of whom has decided upon a corn project, joined the club. They are Donald Adams, Joe Iwanski and Nick Iwanski.

Northeastern 4-H club baseball team lost their first practice game to the Mill Creek 4-H club team.

## New Christian Science Publishing House

BOSTON, Mass.—Continued growth of the activities of The Christian Science Publishing Society has necessitated expanded facilities. To meet this condition The Christian Science Board of Directors of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, will erect, as soon as plans and arrangements are completed, a new Publishing House.

Here provision will be made for the needs of The Christian Science Monitor, The Christian Science Journal, the Christian Science Sentinel and all other literature published by the Society.

The new building, which will cost in the neighborhood of \$3,000,000, will occupy approximately 50,000 square feet of ground bounded by Massachusetts Avenue, Norway, Falmouth and Clearway Streets, Back Bay. Operations are to be hastened in accord with the public and private building program which Mayor James M. Curley of Boston has been urging in conjunction with President Hoover's recommendations for relief of unemployment.

The structure will have a varying height. The Massachusetts Avenue end of the building, which will be used for offices, will be nine stories in height, while that part which is opposite The Mother Church edifice will be three and four stories in height and in scale with this edifice.

The publishing building will be related in architectural style to The Mother Church, and its design has been influenced by the fact that in the future it probably will become one of a group of buildings which will surround and form a fitting architectural setting for the Church. It will be an all-stone building of the Italian Renaissance type, the lower story to be of granite and the upper stories of limestone.

Special attention will be given to the installation of modern heating and ventilating devices. The central plant will be housed in a building adapted to it, with an ornamental tower inclosing the stack, the tower to be of brick and stone conforming with the beauty and symmetry of the main building.

The building now occupied by The Christian Science Publishing Society, completed in 1908, will be used for the administration offices of The Mother Church.

The architect is Chester Lindsay Churchill, and with him is associated Lockwood-Greene Engineers, Inc., of Boston, who will have charge of the plant layout.

### COUNTY PHYSICIAN'S CONTRACT IS FAULTY, TAXPAYERS CLAIM

#### Allege Document Would Be Rejected in Private Business

Alleging that the contract between the Lake county Board of Supervisors and Dr. Charles Lieber, employed by the board as county physician for two years, is faulty in at least one paragraph under which it is possible to run up an unlimited amount of expense, the Waukegan Taxpayers Association today made public the document they claim would not be accepted by any corporation or firm in making a contract of this kind.

The contract in full, together with the county clerk's certificate and the appended comment of the Taxpayers Association officers, follows:

THIS INDENTURE made and entered into this 29th day of April, A. D. 1931, by and between the county of Lake, in the state of Illinois, first party, and CHARLES LIEBER, M. D., of the city of Waukegan, county of Lake and state of Illinois, second party.

WITNESSETH THAT: WHEREAS at a special meeting of the Board of Supervisors of said county of Lake in the state of Illinois regularly convened and duly held, the said Board of Supervisors of the said county of Lake named and appointed said second party county physician and superintendent of the Lake County General Hospital for the term and period of two (2) years beginning July 1st, 1931, and ending June 30th, 1933, both dates inclusive, for and in consideration of the terms, covenants and conditions hereinafter specified.

THIS INDENTURE was read and submitted to said Board of Supervisors and regularly and duly accepted and the chairman of said board and the county clerk were duly authorized, empowered and directed by the said Board of Supervisors to enter into and execute said indenture for and on behalf of the said county of Lake.

NOW, THEREFORE, and in consideration of the terms, covenants and conditions hereof, the parties hereto bind themselves, as follows:

Said second party shall receive as and for his compensation for his services to be rendered and performed as follows:

TWENTY-NINE HUNDRED (\$2,900.00) dollars per annum for services as county physician, in consideration of which he shall respond to all calls for attendance and attend upon the county poor of said county of Lake whenever necessary or requested by any supervisor of any town in said county or by the county board of supervisors in said county.

THREE HUNDRED FIFTY (\$350.00) dollars per annum for the care and supervision of the contagious hospital.

FIVE HUNDRED TWENTY-FIVE (\$525.00) dollars per annum for the care and supervision of the tubercular ward and special work on tuberculosis patients.

THREE HUNDRED (\$300.00) dollars per annum for medical and surgical attendance on such minor dependents in charge of the county as now are or hereafter may be inmates of the Methodist Deaconess orphanage located at Lake Bluff, Illinois.

SEVEN HUNDRED (\$700.00) dollars per annum for the treatment of venereal cases as is required by the laws of the state of Illinois.

ONE HUNDRED (\$100.00) dollars per annum for services to and attendance upon prisoners confined in the county jail.

ONE HUNDRED (\$100.00) dollars per annum for the care and treatment of such persons as may be in the detention home.

Payments on the above specified sums and amounts shall be made to second party in eight (8) equal installments on the dates as follows: October 1st, 1931; January 1st, 1932; April 1st, 1932; July 1st, 1932; October 1st, 1932; January 1st, 1933; April 1st, 1933; and July 1st, 1933.

SECOND PARTY shall have the use of the residence on said General Hospital grounds formerly furnished to the county physicians, with maintenance, heat, light, etc.

SECOND PARTY shall have the necessary hospital equipment, including the present facilities for attendance upon the patients not confined in the hospital.

SECOND PARTY shall select his own assistants, anesthetists, technicians, etc., when in his opinion an occasion arises for their employment, payment to be made by the first party as in the past.

## Interest Money Is Wasted In Lake County, Taxpayers' Association President Asserts

### SAYS ROAD BONDS ARE SOLD BEFORE FUNDS ARE NEEDED

#### Taxpayers' Submit Address Supervisors Refused To Hear

#### EFFORT TO FORM PRINTING COMBINE IS EXPOSED

The alleged needless spending of thousands of dollars in the payment of interest on road bonds sold before the money is actually needed, is exposed in the address, delivered by R. H. Strife, president of the Waukegan Taxpayers Association, to the Lake county Board of Supervisors, when that body convened on the morning of April 29.

The rebuff of President Strife, and the flat refusal of Chairman Obee to recognize the speaker who demanded a hearing before the entire board, is now history; and it is well known that an exchange of state warrants followed the physical combat that ensued at the close of the board's morning session.

Not only does President Strife in his "intended address" expose the waste of public funds through the payment of unnecessary interest money, but he hints of a proposed printing ring in his story of the A, B and C printers. (Names and complete data regarding the alleged transaction are on file, Strife declares.)

Scoring greed and illegal practices on the part of officials, Strife pleads for intelligent and unselfish services from all who have taken oath of office to serve the public who have placed them in positions of trust. Here's the Address the Supervisors Did Not Hear.

Gentlemen: I come before you again as a representative of Waukegan and Lake county taxpayers under the constitutional right to petition our governmental officers.

Recently the Waukegan Taxpayers Association officially objected to the election of William J. Obee of Highland Park to the chairmanship of the Board of Supervisors for the ensuing year.

I was very much impressed with the report of the attitude of Mr. Obee as published in the Waukegan Daily Times under date of April 23, 1931, in which he exhibits an earnest desire to save money for the taxpayers of Lake county.

I wish Mr. Obee had felt the same way years ago. The Waukegan Taxpayers Association would probably not have been compelled to object to his chairmanship.

We have several reasons for our objection: In the first place, during the years of 1923 and 1924, and directly contrary to law, Mr. Obee acted as

fixed and said party of the second part has set his hand and seal to these presents the day and year first above written.

THIS INSTRUMENT being executed as aforesaid, in duplicate.

superintendent of the construction of new addition to the court house, earning an aggregate amount of \$5,843, which was paid to him by the Board of Supervisors, thereby placing himself in a position not only contrary to law, but also contrary to common ethics, where he was able to pass off upon his own bills.

It has been observed that during his supervisor incumbency Mr. Obee, in some instances at least, has looked after Mr. Obee's personal interests. The recent soap deal, by a committee of which he was chairman, proves this. Therefore, we feel that Mr. Obee is not entitled to the honorable and important position as chairman of the Board of Supervisors. We also feel that he should be compelled to pay back all the money that he took contrary to law.

These facts can be verified by any member of the Board of Supervisors if he will take the time and trouble to look up the records in the County Clerk's office.

I might add here that Supervisor Vercoe from Highland Park, a township supervisor with Mr. Obee, was instrumental by a motion to sup-

port Mr. Obee in his illegal position of superintendent during the addition and alteration to the court house.

If I were critical I would say that Mr. Obee did not make a good superintendent, whether he were such legally or not, for you will recall that after this construction work was done, additional work had to be done at an approximate cost of \$1,000 in order to make the court house comfortably habitable.

Another reason why we object to Mr. Obee as chairman is that in spite of the fact that he has been the supervisor for many years, he has permitted Mr. Vercoe, who was chairman, and I believe now is chairman, of the finance committee, to sell many thousands of dollars' worth of paving bonds before the money was needed.

I refer specifically to the Bond Issue voted upon in March, 1930.

I am informed that Mr. Vercoe, as chairman of the finance committee, anticipated the bond election by two or three months and made arrangements for the sale of these bonds. They were sold without bids. They were sold before the money was needed, and they are drawing interest from the county funds.

No one knows when all of this money will be needed, and if Mr. Vercoe had handled a like matter for his own private interests, or his bank's interest, he would have done as the sanitary board is now doing—sold the bonds only when the money was required for use.

Mr. Vercoe when asked by the taxpayers of Lake county to explain his position specifically as to this transaction.

We have many other transactions that will be brought up from time to time in which other of the supervisors were interested. One of the most important at the present time is the printing done by Mr. Paul Udell, another supervisor from Highland Park, and here I will quote from the Antioch News of April 23, 1931.

"Other Violations Cited. In the selection of members for the various committees it may be deemed advisable to scan the records of members, especially the personnel of the printing committee.

"Published proceedings of the Supervisor Board reveal that the Highland Park Press and other publications owned and operated by the Udell Printing Co., have done considerable work for Lake county during the time that Supervisor Paul L. Udell has been a member of the county printing committee.

"Supervisor Udell is part owner and an officer of the Udell Printing Co. The section of the Illinois statute violated when supervisors or other officers interest themselves in contracts or public work, and to which

the Taxpayers Association is probably alluding in the letter of protest, is as follows:

(This letter was sent to the supervisors by the Taxpayers Association on April 23, 1931.)

"CHAPTER 102, ARTICLE 3.—Not to Be Interested in Contracts.—Not to Act as Attorney to Procure—Bribery. It shall not be lawful for any person, now or hereafter holding any office, either by election or appointment, under the constitution of this state, to become in any manner interested, either directly or indirectly, in his own name or in the name of any other person or corporation, in any contract or the performance of any work in the making or letting of which such officer may be called upon to act or vote. And it shall not be lawful for any such officer to represent, either as agent or otherwise, any person, company or corporation, in respect of any application or bid for any contract or work in regard to which such officer may be called upon to vote. Nor shall any such officer take or receive, or offer to take or receive, either directly or indirectly, any money or other thing of value, as a gift or bribe, or a means of influencing his vote or action in his official character; and any and all contracts made and procured in violation hereof, shall be null and void."

"When it is considered that the maximum penalty that may be imposed upon one convicted of violating this law, is a penitentiary sentence of five years, or a fine of \$1,000, or both, it would seem that supervisors would proceed with extreme caution regarding the placing of contracts for public work.

"To further tie up printing purchases and to halt the commendable practice of county officers making purchases wherever most advantageous, two years ago, through the influence of some group, the 'regulation plan' was adopted in a resolution passed by the Board, thus giving the printing committee a throttle-hold on the county publication business, which has assumed the proportions of a 'racket.' The county appropriates \$30,000 per year for printing.

"There are two ways to stop unlawful expenditure of Lake county funds: One is the securing of a permanent injunction restraining any officer from participating in any county work or contract.

"The other, and more potent way, is to institute criminal action against those who have wantonly slapped the law in the face."

Before I close I want to recite a little story concerning three printers in Lake county. We will designate them A, B and C. The story is told me by C. Messers A and B conspired to do a certain job of printing for

### CONSTITUTION SETS FORTH PURPOSE OF TAXPAYERS' ASSN.

#### Co-operation With Officials Is Keynote of Splendid Document

The constitution under which the Waukegan Taxpayers Association has operated since its organization three years ago, sets forth that the keynote of the association is co-operation to bring about a better understanding between private citizens and those who have been elected to offices of public trust. The constitution is brief and to the point. It has been pronounced a great document, and has been recognized throughout as a practical adaptation of the Golden Rule.

Lake county. Mr. B was delegated to call on Mr. C, to whom he made a proposition as follows:

"Mr. C, there are only three of us in a position to do a certain job for the county of Lake, for which we can get \$1500 if we work together. The plan is that each of us bid on the job, one of us bidding a little lower than the other two this year, and then alternate so that each one will get the job one year out of three. The profit on this job is about \$600. We will divide the profit each year three ways, and in that way have a nice thing."

Mr. C told the president of the Waukegan Taxpayers Association this story. He said that he told Mr. B he was never more insulted in his life and ordered him out of his office. He said though, "Before you go, let me tell you I am going to bid on this job myself and you will have to go some to get it." Mr. C went to his mechanical department and told his employees to cut the job to the bone for he did not wish to make a cent on it, but he did not care to lose anything. However, Mr. B secured the job by bidding lower than Mr. C, and then had to take it to a non-union shop to save a too heavy loss.

Gentlemen, you are elected to the honorable position of supervisors, the most important position for the administration of the affairs of Lake county in Lake county. You are in the same position with regard to Lake county affairs as men who are elected presidents, senators, congressmen, governors, etc.

If you are imbued with the proper American spirit, you seek these offices, not for selfish gain, but for unselfish service towards the people who elect you.

It is a great honor to be a public official in the true spirit of service and when a man does not live up to that principle he falls far short of the true idea of American government.

This country is suffering dreadfully from greed, graft and grab, and unless a change is made we shall go down to ruin and disgrace like Babylon, Nineveh, Rome, and Germany, and the poor innocent taxpayers who elected their governors will be destroyed with them.

There are several things that should be cleared up and straightened out in addition to the above. I believe that a better system of auditing should be installed.

I refer to the adoption of the plan as outlined by the Lake County Medical Association with regard to operating the Lake county hospital.

At this time I cannot help reverting to the long period of years during which the Board of Supervisors has not been troubled by the treasurer. Only one treasurer during a period of thirty years or more has come through clean. I need not further touch upon this, as you all know, or should know, about these things.

In closing, gentlemen, I wish to say that this is a hard task for me, but in the interest of the poor burdened taxpayers of Lake county this job must be done by someone, and if necessary someone must induce our state's attorney to compel obedience to the law, even to the extent of securing special legal help. We must stop bond issues without the vote of the people. We must stop the easy getting of money by the greed, graft and grab methods. We must have more intelligent and unselfish service from all of our supervisors who, when they take their oath of office, pledge themselves to serve the people honestly, diligently, and in obedience to the law.

Sincerely yours,

"Mortals and Immortals" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 17.

The Golden Text was, "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Cease ye from man, whose breath is in his nostrils: for wherein is he to be accounted of?" (Isaiah 2:22).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortal man is the antipode of immortal man in origin, in existence, and in his relation to God" (p. 215).

### ANTIOCH GRADE SCHOOL WILL GRADUATE 28

#### Grade School Exhibit to Be Displayed to Public Friday

A class of twenty-eight will be graduated from the Antioch grade school next Tuesday evening, including sixteen boys and twelve girls. Nearly all of them expect to continue their education by attending the high school next fall. The graduates:

Bernie Waters, Lester Chinn, Kenneth Crowley, Franklin Crandall, Armand Dalgard, William Duffy, Oliver Grutzmacher, Xavier Hawkins, Oliver Hunt, Ray King, Stanley Lukas, Frank Merrill, Copley Simpson, Arden Van Patten, Copley Phillips, John Koukol, Ruth Chinn, Agnes Christensen, Marie Griffin, Elizabeth Hostetter, Agnes Techert, Alice Jensen, Stacey Kubs, Dorothy Monnier, Helen Strang, Virginia Tidmarsh, Anna Mae Turnock, Jane Warriner.

Antioch is combining with eight rural schools for the graduation exercises Tuesday evening, but the names of the graduates from those schools are unavailable, as the students do not write their final examinations until tomorrow.

### Junior-Senior Prom Will Be Held Amid Cold Arctic Scenes

#### Parents and Friends Invited to View Dance Floor Before the Prom

The annual junior-senior banquet and promenade will be held at the high school building Saturday evening amid Arctic scenes and climates.

The auditorium has been transformed into a frigid northland—the land of the Eskimos. Panels painted with Arctic landscape shroud the north and south sides; in the east stands an igloo where the thirsty eskimos quench their thirst with melted iceles and snow. Above and beyond in the distance is visible an erupting volcano.

### OAKLAND SCHOOL AWARDED DENTAL HEALTH PENNANT

A pennant was awarded Monday to the Oakland school, one mile east of Loon lake, for making the greatest improvement in dental hygiene throughout the school year of any of the Lake county schools.

A special program was arranged for the occasion at the school, and was attended by many of the parents. The presentation was made by County Superintendent W. C. Petty to Helen Herman, who accepted for the school and expressed the appreciation of the students and the teacher, Miss Madalyn Sheehan, to Miss Pheta Waterman and Miss Gallager, county health nurses, for their interest and encouragement during the year. Songs and oral readings followed.

Flashlight pictures by a representative of one of the Chicago dailies were taken at the time the pennant was presented.

The Antioch high school showed the second greatest per cent of improvement, and was followed by the Gurnee school.

volcano. To the west, over the orchestra box, the bright rays of the midnight sun are cast over the bleak white land.

And do you think there is no life in this region? Life-size polar bears, eskimo huskies and reindeer roam among the icebergs where the little penguins perch. Myriads of icicles glitter in the cold blue light.

To enter this northern fairland, one must stoop through the door of an igloo—then, lo, the strains of music by the Seattle Nite Owls greet the ears.

The junior class, under the direction of their officers and class advisors, Fred Hackett and Miss Lillian Schroeder, have worked hard to produce this transformation, and have extended an invitation to all those desiring to view the scenes to come between 7 and 8, Standard Time.

Seniors will be treated to the very best of hospitality by the Eskimos, and will be given a rare opportunity to partake of a variety of Arctic dishes, prepared by Arctic mafrons and served by cunning northern maidens and youths.

An exhibit of grade school work will be open to the public tomorrow, from 3 until 5 p. m., and from 7 until 9 p. m. Standard Time. Much of a child's knowledge is acquired through making things, and experimenting, and the exhibit will bear tangible evidence of education received.

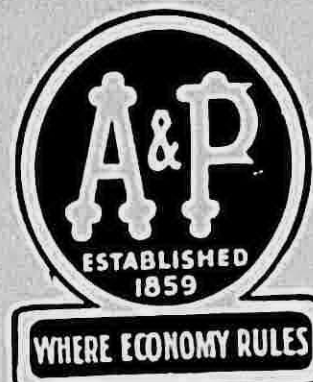

An exciting baseball game between the Antioch grade school and the high school freshmen ended in a narrow victory for the freshmen, 19-16, after two overtimes. At the beginning of the sixth inning the grade school seemed to have the game clinched, with a 12-3 lead, but after a number of substitutions had been made on the grade school line-up, the freshmen rallied strongly, and with Courtney Abela at the pitcher's plate finished in the lead. A return game will be played soon.

The high school baseball team was defeated by Warren last Friday, 12-3, in a game where little enthusiasm was shown by either team. Although Brogan did some excellent pitching, and held down the score, several runs were let in by Avery in the latter part of the game. The first half of the game was well-balanced, but in the second half Warren began loping the bases for an easy victory.

A game with Loyden will be played here tomorrow afternoon.

## Griffin Concludes Prize Essay on Meat Industry

### Tells of Utilization of Waste Products by Large Packers

The conclusion of Fred Griffin's essay on "A Great Industry Based Upon the Preparation and Distribution of Consumers' Food Products from Raw Farm Produce," which was awarded fifth prize in the national essay contest sponsored by Swift and Company of Chicago, follows:

Already with this rapid expansion of business, Swift and Company realized the farmers need not only of a market for his livestock, but also a market and a way of transporting his dairy and poultry products from the producer to the consumer.

In 1900, Swift and Company began to handle these products, as, with a few changes, these products could be shipped in the same refrigerator cars, sold by the same salesmen and retailers, delivered in the same wagons, and billed by the same accounting forces. At this time 72 per cent of the butter consumed was made on the farm, whereas at the present time only 30 per cent is made by the farmer. The milk and cream is sent to creameries, where it is tested for butterfat, flavor and acidity. It is also inspected and pasteurized to insure quality and purity. From here it goes through cooling coils, where ripening takes place before it is churned into butter.

**Poultry Products Inspected.** Before this great move by Swift and Company poultry and eggs were also carelessly handled, and in many cases poultry was unfit to use when it reached the consumer. The eggs also had no size or quality from which the consumer could choose.

Today Swift and Company handles poultry and eggs through the same plants, where they are inspected, sorted and graded for marketing.

Swift and Company not only has to assemble this produce from the producer, but also has to distribute and market these products to the consumer.

As 75 per cent of the cattle, hogs, sheep and poultry are raised in the West and Middle West, of which about 67 per cent is consumed in the East, it is necessary for Swift and Company to own their plants, cars, storage houses, and other equipment needed.

**Equipment Owned.** Swift and Company employ about 55,000 men to carry on this national and international business. Thirty meat plants and seventy dairy and poultry produce plants are necessary. As Swift and Company sell to more than 200,000 retailers, it is necessary for them to operate about 6,000 refrigerator cars, which are cooled by brine tanks, filled with ice and salt. Overhead construction systems also perform a better cooling process, by which Swift and Company is able to handle about 15 per cent of the meat and about 10 per cent of the poultry and dairy products in the United States.

Since the animals produced on the farm have to be converted into meat, and the by-products utilized into merchantable goods, it is necessary to have such companies as Swift and Company to pack, manufacture, and distribute these products to the consumer. In some cases the cost of marketing is somewhat greater than the cost of production.

**Distribution of Price.** When a steer is shipped to Swift and Company, the producer receives about 57.8 per cent of the total retail price of the animal. The transportation to market amounts to 4.7 per cent, packing expenses and profit 15.5 per cent, retailer expenses and profit 22 per cent, and finally the consumer pays 100 per cent for the product he consumes.

Large packers as Swift and Company can utilize by-products efficiently and hence can operate on a small margin economically.

Within this margin Swift and Company maintains stockyards in country towns from which livestock can be shipped. At the plants animals are unloaded, fed, watered and held until sold. Some of the cattle, sheep and hogs are slaughtered and sold to buyers or shippers, and the light cattle are shipped to feeders.

The surplus product raised in the Middle West are shipped by refrigerator cars to the eastern and southern states, where there is not enough produced.

**Foreign Marketing.** The marketing in foreign countries may be done in various ways. It may be handled through direct representative, foreign agencies and brokers, or it may be done through direct sales to foreign merchants.

This requires not only the fulfillment of different tastes of different nationalities, but different business customs, languages and the exchange of money forms.

**Daily U. S. Consumption.** The daily consumption of meat in the United States is 50,000,000 pounds; butter, 5,500,000 pounds; cheese, 1,500,000 pounds; poultry, 4,500,000 pounds, and eggs, 5,500,000 dozen.

Swift and Company's total sales for 1929 amounted to \$1,000,000,000. Swift and Company with this direct marketing system, rapid turnover of goods from producer to consumer, and with its nation wide industry is able

## SCOUT NEWS

### Training Course for Leaders.

The approved training course for adult Scout leaders for 1931 will be held on Monday evenings and the first Saturday and Sunday of June, conducted by the leadership and training committee, Lake county council, Boy Scouts of America.

A minimum course was completed the first week in May, and resulted in twenty-nine completing the course. All of those graduates and others who have completed the minimum training course in previous years, are eligible to enroll in the sessions of the approved course.

Eighteen of the twenty-four troops in the Scout council now have at least one adult leader who has completed the minimum course. It is expected that as large a percentage of the troops will have leaders who have completed the approved course after the coming sessions have been run off.

The Monday evening meeting will be held at the First Methodist Episcopal church, Waukegan, Ill., and the June 6 and 7 sessions will be held at Camp Duncan, Fish Lake, near Volo, Illinois.

Donald L. Hains, deputy Scout commissioner in charge of training, will be Scoutmaster of the training troop into which the leaders will be organized, and Arne W. Makela, deputy commissioner for the reading program, will be assistant Scoutmaster.

**County Scout to Attend Culver.** Culver academy, at Culver, Ind., has again extended to the Lake county council, Boy Scouts of America, the privilege of sending a Scout to the summer school of woodcraft for one week in July or August.

Each of the twenty-two Scout troops in the council are being given the opportunity to name Scouts of their respective troops for this honor. When all nominations are received at council headquarters tomorrow, the selection will be made as to which Scout will represent Lake county Scouts this year. One or two local boys have attended the summer school of woodcraft for the Scout week periods every summer since 1925.

Last year two members of Troop 81, Antioch—John Brogan and Robert King—were selected to attend, and both won the Culver bronze "C", an achievement every Scout aims at when he goes to the Indiana school.

Registrar F. L. Brooks has stipulated that Scouts 13 and 14 years of age are invited to enroll for the Scout periods, and selection of the Scout from the Lake county council will be made from boys of that age now in the registered troops of the council territory.

**Troop 9 Wins First Aid Contest.** The first aid team representing Troop 9, Lake county council, Boy Scouts of America, after getting off to a poor start with the first problem, scored high in three of the remaining four problems and won first place in the second annual inter-troop first aid contest for Boy Scout troops that was held at the Waukegan township high school gymnasium last Friday evening.

All four of the leading teams scored a higher average per problem than the score of last year's winning team. Troop 9 averaged 90.6 per problem; Troops 1 and 11 a grade of 89 in each event, and Troop 3 scored 88.8. Last year's best average was 82 per cent per problem.

to keep their employees under a system of efficient management. It is only such industries as Swift and Company's nation wide distribution of farm products that can operate on a small economic margin in the preparation and distribution of the consumers' product from the raw producers' shipment.

### Following are the problems given in Friday evening's first aid contest.

Problem 1. Garage roof falls in and one boy can be seen from either end lying on floor. Opening is narrow and only 3 feet high. After rescue, patient is found to have fractured lower left leg. Time—6 minutes.

Problem 2. Patient found unconscious, lying on his back across live electric wire. Rescue and give artificial respiration for 1 minute. Time—5 minutes.

Problem 3. Scaffold breaks while two boys are repairing tree house. One boy is found to have cut on palm of left hand spurting blood. His companion has fractured right forearm. Treat! Time—3 minutes.

Problem 4. While building a campfire, Scout stumbles and burns both hands and cuts left knee. Treat and transport patient 5 feet on improvised stretcher. Time—3 minutes, not including transportation.

Problem 5. Troop on hike in hot sun. One boy becomes unconscious, face red and dry. Another boy on seeing him fall, becomes very pale with cold perspiration on forehead. Treat. Time—4 minutes.

**Winning Team to Chicago.** The winning team will go to Chicago the first week in June to compete against representative teams from nine other suburban councils and from each of the seven Scout districts within the city of Chicago.

## Antioch U. of I. Senior Is Honored For Scholarship

Glenna Roberts, a senior at the University of Illinois, and a graduate of Antioch township high school, was among the students given recognition at the seventh annual Honors Day program last Friday morning which was held in honor of students who have excelled in scholarship during their educational endeavors.

Because of their superior scholarship in both their junior and senior years in the university, or because their scholastic average for the first seven semesters of their college career is equal to or higher than that of any student chosen on the basis of scholarship during his junior and senior year, thirty-one seniors saw their names inscribed on the bronze tablet, unveiled at the convocation, while some 900 other students were given recognition for superior scholarship.

**Three Classifications.** The honored students are classified in three ways: First, those whose grades are in the upper 10 per cent of each class are distinguished by "High Scholarship" and are entitled to have their names printed in the Honors Day program. Second, students in the upper 3 per cent of the sophomore, junior, and senior classes receive special mention as having manifested "Superior Scholarship." Third, those seniors who receive recognition for "Superior Scholarship" in both their junior and senior years earn the right to have their names inscribed on the bronze tablet which is unveiled during the Honors Day convocation.

Miss Roberts merited "High Scholarship."

## Conference Music Festival Called One Of Best In State

### John Tellasha and Richard Martin Occupy Coveted Violin Chairs

The festival is ended, but the memory lingers on—

The performances of the 500 students participating in the third annual northwest high school conference music festival held at Libertyville Monday evening won enthusiastic admiration and applause from the record crowd attending.

Director Raymond F. Dvorak, guest conductor from the University of Illinois, who has conducted the organization for all three years, stated that he believed that the northwest conference festival could be excelled by none in the state, and that a marked improvement over last year's performance had been made, due to the increase of interest in music by conference instructors and students.

**"Gloria Patri" Holds Audience.** A hush fell upon the audience as the chorus took up the phrases of Palestrina's "Gloria Patri," and the antiphonal choir echoed them.

However, the entire performance, as rendered by the music students of all the conference schools en masse, showed a mastery, balance and rhythm, incredibly accomplished after but a day of united practice. Instructors introduced.

A welcoming speech was given by the conference president, L. O. Bright, with whom the idea of a combined festival originated, who gave much credit for the success of the experiment to Mr. Dvorak, and briefly expressed the aims of the music directors for greater development next year. All the directors were introduced to the audience at the close of the festival.

**Antioch Boys Honored.** John Tellasha and Richard Martin brought glory to Antioch by being selected to occupy the first and third violin chairs, respectively.

## RHEUMATISM IS PUT TO ROUT!

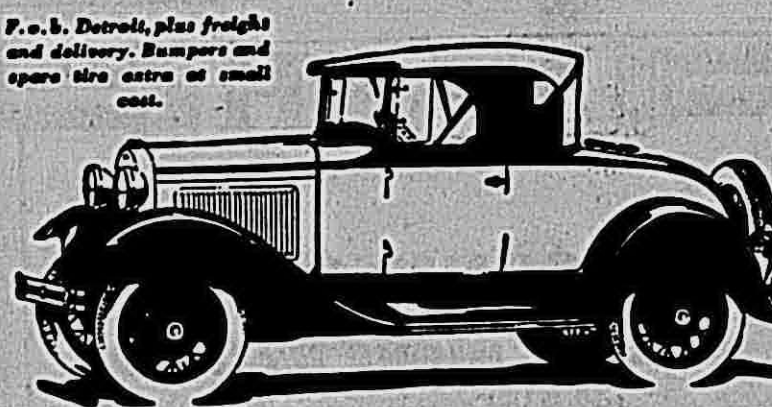

Consider, For Your Own Sake, How This Remarkable Compound Wins Its Victories

There is a real lesson in the experience of Mrs. Clara E. B. San Antonio, Tex. She says: "I had rheumatism for seven years. Pains accompanied every movement. My stomach was weak. I bloated badly and lost weight steadily. Rheumatism left me after three weeks of the Konjola treatment. My appetite increased and I gained weight."

Now read the statement of Mr. J. R. Carlie, 808 South Ninth Street, Waco, Tex. "I suffered for three years with stomach trouble and rheumatism. The pain kept me awake at night. I bloated terribly. Konjola brought me almost immediate relief and today I am free from the pain of rheumatism or stomach trouble. I never hesitate to recommend this wonderful remedy to my friends who need a good medicine."

Konjola is sold here by the Reeves Drug Store.

## Of course...you can get along without Twin Ignition

### ...but you don't get along so well

You could, if necessary, see with one eye. You can drive with one hand. *Two make a better job of it.*

The same applies to Twin Ignition. People who drive the Nash Twin Ignition Eight-80 or Eight-90 (16 spark plugs, 16 firing points, instead of 8) have a distinct advantage over cars still using single ignition. The gasoline mixture is burned more quickly and more completely.

*By engineering test, the same motor with Twin Ignition instead of single ignition, produces 22% more power, 5 more miles per hour top speed and 2 extra miles of travel from a gallon of gasoline.*

Of course, you can get along without Twin Ignition. But we say, and these cars will prove it, *that you don't get along so well!*

Just compare the pep, power, smoothness and gasoline consumption of the Nash Eight-80 or Eight-90 with cars of the single ignition type at the same price, and you'll agree with us *and with Nash owners*, that here is a most desirable improvement.

Buy no car today until you have made this interesting comparison. We will gladly arrange a demonstration. Just phone...

A STORY OF PRIVATE INITIATIVE AND LOCAL CAPITAL

## Chapter III

### MAKING "SERVICE" MEAN SOMETHING

THE "LAKE COUNTY EXPERIMENT" demonstrated a new and better method of bringing electric service to scattered suburban and rural communities in northern Illinois. One centrally-located electric station was substituted for a dozen small local plants—and wooden pole lines carried service long distances to twenty-two customer-communities. But the story of the Lake County Experiment has already been told...

What had been done once could be done again. What had worked in Lake County could be made to work over 6,000 square miles of territory surrounding Chicago. And that was the job of the Public Service Company twenty years ago.

All over northern Illinois, local electric stations that served only one town were abandoned. A few modern stations capable of serving twenty... thirty... forty towns replaced them. This extension of the "central station" idea demonstrated by the Lake County Experiment brought service to almost 100 new communities within a few years.

The wooden wire-strung poles that paralleled every main highway became symbols of a new era of electric service—a service that was available twenty-four hours a day instead of a meager six. It meant much to the residents of northern Illinois.

Storms, however, still played havoc with these pole lines. Terrific winds uprooted poles, tore down wires. Service was interrupted. Trouble-shooting crews were dispatched at once to repair the damage. They worked twenty-four hour shifts, if necessary. But service *had* been interrupted.

So the next job was to forestall as many of these interruptions as possible. The network of pole lines was strengthened. Old lines were replaced with new lines of sturdier design. Communities had service brought to them over more than one route. In case of an accident on the main line, service could be switched immediately to an indirect or "detour" line. The large investment in this reconstruction program resulted in a definite advance toward the high quality of service which is taken for granted today.

In 1923, an even greater step forward was taken. Interconnection of electric systems was introduced into northern Illinois. Just as, twelve years before, the files of wire-strung poles typified an era of improved twenty-four hour service, the steel tower lines that now began to appear typified an era of *super-service*. These steel towers, anchored in concrete and transmitting vast quantities of energy, strengthened the pathways of power between important generating stations.

Today steel tower lines are a familiar sight. They interconnect all the Company's large electric stations, making the power produced at any one of them available to all the others. They interconnect, also, the power resources of neighbor utility companies, tying in 317 northern Illinois cities and towns with the greatest pool of power in the world. Here are vast power highways ready to serve the future, forestalling the possibility of any "electrical famine" in the years to come.

## NEED HELP? READ ON

Graduation gifts this year must necessarily be less elaborate than usual, and this fact makes the question of what to give even more than ordinarily teasing. The desire of every girl's heart, a watch, may not be gratified this year, so something equally attractive, if not as expensive, must be supplied. An overnight box, hat-box, or traveling bag are articles that make a girl feel like a million dollars, are useful, and moderately inexpensive.

Hosiery or socks, even though gifts quite commonly given, are always welcome. What girl or boy who could not find use for another pair of hosiery or socks in some different shade or design. Hankies, too.

A purse is an ideal gift for a girl—she never complains of having too many of those—in fact, she would like one for every occasion, if it were possible.

And what about the contents of that purse? There are numerous suggestions: Compact, comb, pen, pencil, lipstick, hanky, file, pocket alomizer, and whatnot. A monogrammed billfold is something for both the girl and boy graduate—maybe you didn't know it, but real boys like silk underthings for summer wear, too.

And there are other things—for the boy: An initialed or monogrammed belt or pen.

Girls are always "keen" on jewelry—even nice costume jewelry pleases them. A diary might just tickle some romantic graduate pink.

More suggestions will follow next week, if none of these take the wrinkle from your brow.

"The Flowers That  
Bloom in the Spring"  
Include Gay Tulips

The woman who does not love flowers is an exception. Most homemakers admire them extravagantly and go to great pains, which are oftentimes pleasurable, to cultivate lovely plants or gardens. Some are too busy, or just never get around to taking the initial steps to start the plants.

Today tulips and lilacs nod joyously to passers-by. Tulips in central Illinois are much more frequently seen than in this section, and to the motorist are a source of much pleasure. It does give one a thrill to drive through a town where nearly every yard generously offers its glory of stately tulips to those who would see.

## Thrifty In The Kitchen

Choose Appetizing Foods  
On Basis of Extra  
Nutriment Value

EVERY month or so the newspapers report the cost of food has gone down. But when the economical housewife takes her market basket—or telephone—in hand to take advantage of this drop in price it is not so easy to find.

The really intelligent way to make every dollar count is to know which foods give the greatest return in nutriment for the money spent and to plan meals accordingly. For instance, buy cheaper cuts of meat. Do not buy fruit out of season, and do not cut down on bananas, grapefruit, oranges, and other fruits of moderate price which are so important in the diet. Use more canned vegetables, especially tomatoes, and make use of evaporated milk in cooking. Use dried beans or peas occasionally.

While it takes thought on the part of the housekeeper to plan the less expensive meals, there are all sorts of interesting dishes which tempt the appetite and yet save the pocket-book. The following recipes may interest those who believe "it's smart to be thrifty."

**Banana Brown Betty**  
3 cups bread, diced; 3 tablespoons butter; 2 apples; 2 bananas; ¼ cup sugar; ¼ teaspoon cinnamon.

Cut bread into dice and sauté with butter until bread cubes are brown. Peel apples and bananas and cut very thin and dredge same with sugar mixed with cinnamon. Cover bottom of baking dish with the bread, add fruit and remaining bread in alternate layers, saving a few of the crumbs to put on top. Bake one-half hour covered and the last fifteen minutes uncovered in a moderate oven 375° F.

knowledge to make them thrive sturdily, and return every year in a more profuse riot of color. Tulip growers classify them as follows: (1) Selfs, or mother tulips, with flowers of a solid color; these are not constant, but "break" after a few years into variegations. (2) Bizarres, with a yellow center and orange or red markings. (3) Bybloemens, white marked with various dark colors, as purple, brown, etc. (4) Roses, with variegated rose-pink, red or scarlet flowers. Most of these occur in both single and double forms.

A border of lilac trees in fragrant bloom, is irresistible. Once the bushes get their roots well started, they will live for generations, the delight of the many souls which come and go.

## Black Bean Soup

1 pint black beans; 2 quarts cold water; 1 small onion; 3 stalks celery, or ¼ teaspoon celery salt; ¼ table-spoon salt; ¼ teaspoon pepper; ¼ teaspoon mustard; few grains cayenne; 2 tablespoons butter; 1½ table-spoons flour; 3 hard boiled eggs; 1 lemon, or 3 tablespoons vinegar.

Soak beans over night. Add onion and celery stalks, broken in

pieces. Simmer several hours until beans are soft; add more water as water boils away, and add the seasonings. Melt butter and stir in flour. Strain the beans and add. Cook until smooth. If too thick add more water. Add vinegar or slices the lemon and pour the soup over it either in a tureen or in the soup dishes. Lentils may be used instead of beans.

**Pork Chops with Dressing**  
1½ cups bread crumbs; 3 tablespoons pork fat, chopped; ¼ onion, finely chopped; ¼ teaspoon pepper; ¼ teaspoon salt; ¼ cup hot water; 8 pork chops.

Mix bread crumbs, pork fat, onion, seasoning and water. Spread on pork chops. Put chops in a baking pan close together; add water to cover bottom of pan and bake in a moderately hot oven 375° F. one hour, basting occasionally.

## Napoleon's Elevation

Napoleon Bonaparte was crowned after the French revolution. The revolution ended with the overthrow of the directory on November 9, 1799, and five years later Napoleon was offered the title of emperor by the French senate, and on December 2, 1804, he was crowned Napoleon I, at Paris.

BOYS GLORY IN  
SHELVES TO HOLD  
THEIR TREASURES

A groan, sometimes expressed and sometimes wisely stifled, reflects the state of mind of mothers when they commence the task of housecleaning, or overhauling the dresser drawers in their boys' rooms.

And in the wake of the cleaning orgy comes a tempest of indignant reproach: "Mom, where did you put that bird's egg shell?" or a horrified: "You didn't throw away that picture of Hack Wilson!" or a wall: "It can't find that bottle I had here. Did you see it?"

It isn't always the little boys, either. All through their school years, this instinct for collecting odds and ends is strong within them, and the understanding parent suffers in silence.

## Solve It with Shelves.

Still, something can be done to ease both boy and mother, and that is—or are—shelves. And not only plain panel shelves, but "whatnots" to fit conveniently into corners of rooms. A boy hates to hunt for things—if he hurriedly shoves some new-found treasure into a drawer, he expects it to be there when next he seeks it—and, of course, those drawers must be put in order occasionally, and care taken that some article of clothing isn't being soiled or ruined by contact with some contaminating "treasure."

When the shelves become heaped and overflowing, the boy himself may be moved to discard the useless and out-lived articles, in order to make room for the new.

## Interesting Royal Watch

A clock of note has for its dial a gold watch made for George IV, and which still has attached to it the chain and watch-key used by that monarch. In a glass-paneled case below is a curious apparatus by which, at the stroke of twelve, a steel needle is projected through a hole in the rim of the watch case and automatically adjusts the minute hand should it be fast or slow.

## Not Named for Davenport

The davenport (couch) is a comparatively modern piece of furniture, and was not named for the inventor, Davenport. The davenport which is named after the inventor is a style of writing desk, small, generally ornamented, and intended for a boudoir.

## First American Rope Walk

The first rope walk built in the United States was constructed at Boston by John Harrison in 1642.

## TOPPY'S TRAVELS

Synopsis: Topsy leaves home to follow his canary. After many adventures, Mr. Frog and Toy, the dewdrop, cause the Cushions to fight the Pillows, who have invaded the land of the Cloud-Queen. The Pillows, however, seem to be winning over the Cushions, so Topsy sets out on an adventure, in which he plans to train an army of Cloud-people. Continue the story:

After Topsy had left Mr. Frog and the Cloud-Queen he danced happily along the road. At last, if everything went well, he would be a general. Toy must have left while he was sleeping, he reflected, somewhat regretfully. He would have liked to have talked with him first, but no doubt Mr. Frog did not wish it so.

The boy grinned ruefully as he thought of this, and wondered secretly if Mr. Frog were as wise as he pretended. He recalled also that Mr. Frog had not told him how long it would take him to reach Mist Valley, nor how long he would have to wait before the soldiers arrived. If he had been at home, where distance was counted in miles, he would have known how to estimate the time, but in this strange land he was bewildered.

Nevertheless he went on his way blithely enough, thinking that if he arrived in Mist Valley in two or three days he would be in time. You see, he could not travel very fast, because he had to go so carefully, and dodge every time he saw a Pillow in the distance.

Once he very nearly was caught napping. It was nearly dusk, and he had been strolling along for a little while without watching for Pillows,

as he had not seen one for several hours. He was humming softly to himself, when suddenly two Pillow guards loomed in front of him with terrifying abruptness.

Topsy jumped quickly aside into a big bush, so that they would not recognize him.

"Who are you?" the guards cried angrily, advancing toward the bush. Topsy didn't answer, but brandished his sword so fiercely that the guards fell back in fright. They circled the bush for a long time, but dared not attempt to force Topsy from it. And poor Topsy, fearing to reveal himself, crouched there until his bones ached.

Of course, he could have killed the guards with his trusty little sword, but he did not want to do that, unless it became necessary.

Something had to be done soon. Topsy could not wait forever. The next time one of the guards approached the bush, Topsy made a lunge, caught the Pillow, and pulled him into the dark leaves. The guard protested lustily, while the other one jumped up and down in excitement, not daring to come to his companion's aid. The boy then tied the struggling guard with plant branches, while he took pleasure in threatening him with the sword.

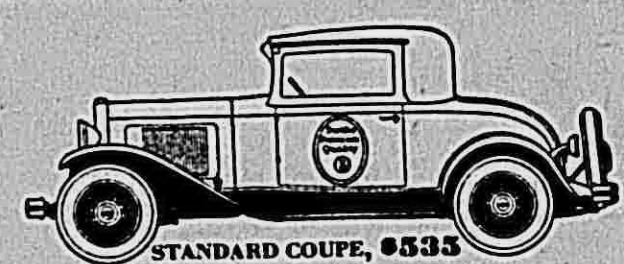

The guard, bound and unable to move, shouted a warning to his brother guard when Topsy would have grabbed him, too. But that Pillow fled with all his might down the road, over the hill, and out of sight.

Knowing that the guard whom he had tied could not free himself for some time, Topsy strode away, down the road, whistling happily.

Prominent among the thousands of concerns using large fleets of Chevrolets are many of the leaders of American industry. In fact, 73 outstanding business firms have purchased a total of 27,605 Chevrolet cars and trucks.

The reason for this preference lies in the unexcelled economy of Chevrolet cars and trucks, as proved by official cost records. These records show that 20 miles to the gallon is a common occurrence among Chevrolet cars. That oil expense is extremely low. That Chevrolet

cars and trucks require only a minimum of service attention. That they give satisfactory low-cost service over exceptionally long periods of time.

Naturally, a car with such a fine record of economy represents an extremely wise investment for any buyer! Especially so, when you consider the many advantages that Chevrolet offers above and beyond economical operation. Come in and learn what these advantages are—what they mean in terms of style, comfort, safety, reliability and value.

## WILMOT PIRATES SECURE KENOSHA LEGION MINSTRELS

### Juniors and Seniors Enjoy Banquet and Prom in Japanese Garden

The Wilmot Pirates have been most fortunate in securing the American Legion minstrels from Kenosha for the evening of Tuesday, May 26, when they will appear at the Wilmot gymnasium with four acts of musical diversion, laughs, and special numbers.

The minstrels have appeared in Kenosha, Racine, Union Grove, and other towns with this year's production and have been greeted with capacity audiences, for their show is excellently staged and highly entertaining.

Frank Zoubek, master of ceremonies, will introduce the entertainers and the Legion minstrel orchestra, directed by Gen Saffig, who is also the pianist, will be present. The orchestra is composed of George Manupell, Fred Ostlund, Albert Landini, Fred Klove, Ray Coshun, John Gorman, Ray Lambrecht, and Jay Rose.

The second act is devoted to Clyde Stoneman, the Man of Mysteries, who spellbinds the audience with his art and magic. In the third act George Manupell, saxophonist, Gene Saffig, and the minstrels render several numbers. In the concluding act, Frank Zoubek, Interlocutor, and the end men in costumes of blue and yellow have the stage. Ward Quinn, well known locally, is to appear in several dances. A fashion show is included in the program.

Tickets went on sale at the Hegeman drug store Tuesday. Reserved seats may be secured by calling Wilmot 273.

### Union Free High School.

The annual junior prom of the Wilmot high school was held at the gymnasium Friday evening and there was a large attendance. The prom this year was one of the prettiest affairs held in connection with the school, and elaborate preparations were made to carry the party to a successful conclusion.

Richard De Bell, president of the junior class, was prom king, leading the grand march with Miss Gwendolyn Schott. The Golden Troubadours of Burlington, directed by Francis Reschlein, provided the music.

The gymnasium had been transformed into a Japanese garden. Lanterns, cherry trees, and lattice work entwined with vines and morning glories served to emphasize the theme.

Miss Alice Kennell, of the commercial department, directed the activities of the junior class.

Mr. and Mrs. Fred Barker and Rose Reading, of Pleasant Prairie, were Sunday guests of Mr. and Mrs. Fred Faulstich.

Debate on the subject, "Installation," was given before the Thursday assembly. Those in the affirmative were Amy Harm, Dorothy Dean and Richard Hansen; negative, Dorothy Nelson, Richard Aylward and Lyle Neuman.

The local baseball team defeated Genoa City in a close and exciting game on the local grounds Thursday afternoon, 9-8. Arthur Hartman pitched the game.

The southeastern high school conference met at Williams Bay Tuesday for the annual meeting. Next year's basketball schedules were prepared. The 1931 commencement exercises will be held June 4, and class day exercises June 2.

The committee in charge has arranged to hold the alumni banquet at the Wilmot gymnasium Friday evening. Emma Kruckman was out over the weekend from Chicago, the guest of Mr. and Mrs. Frank Kruckman and Elizabeth Kruckman.

Fern Jacobi accompanied Mrs. D. Jacobi and Victor Hart, of McHenry, to Elgin, Friday.

Mr. and Mrs. Wallace Dobyns, of Quincy, were weekend guests of the

Mr. and Mrs. Henry Harms, of Mukwonago, were Sunday guests of Mr. and Mrs. William Harms.

Mr. and Mrs. Earl Boulden and Mr. and Mrs. L. Larsen and three children, of Appleton, were guests Sunday of Mrs. H. Boulden and Mary. Mrs. H. Douglas, of Kenosha, was at the Boulden home Tuesday.

The Wilmot Pirates defeated Spring Grove at the home park Sunday afternoon, by a score of 13-1. Next Sunday the Pirates will play the same team at Spring Grove.

Mr. and Mrs. Albert Perkins and daughter, of Chicago, were out for a visit with their parents, Mr. and Mrs. H. Seldschlag, over the week-end.

Mr. and Mrs. Will Holdorf, from Janesville, and Grandma Kanis, of Wilmot, spent Sunday with Mr. and Mrs. Charles Kanis and Mr. and Mrs. August Holdorf.

Mr. and Mrs. L. Sherman motored to Grayslake Friday evening to meet Fred Sherman on his return from California.

Mrs. A. C. Stoxen attended a luncheon given by the Wauconda Ladies' club at Wauconda Tuesday, and enjoyed a Mexican program.

Mr. and Mrs. W. Cole attended a birthday party at Spring Grove Friday evening in honor of Mrs. Byron Orvis.

Mr. and Mrs. Fred Rasch entertained at a 500 party for thirty-five guests Saturday evening in honor of their son, Donald's, birthday.

Frank Golke, of Bristol, called on Charles Kanis Sunday.

May 29.

The local school will have its annual oratorical and declamatory contest at the gymnasium Friday evening. The semi-finals were held early this week. Four girls and four boys will compete Friday. The contest is open to the public and a small admission charge will be made. The best 1-act play which was presented before the weekly assembly will be repeated the night of the contest.

The Eastern Star will give a public card party Friday afternoon at the

students who avail themselves of a last opportunity for "educated fun" in their stunts and good-natured ridicule in the class prophecy.

Valedictories will be delivered by Marie Shodek and Ward Edwards, whose averages for the four years figure to a tie. Another honorary title will be given Ruth Mapes, who entered in her junior year from Cedar, Wis., and whose grades have been exceptionally high.

The program will include the class prophecy and class will, musical numbers by the senior chorus, directed by the class president, Olive Hansen, and the orchestra, individual and group acts, and a humorous reading.

### Graduation June 1.

Major Imrie, from the Culver, Ind., Military Academy, has been obtained to address the graduating class of '31. He is reputed to be a speaker of much force and interest, and greatly pleased those Antioch instructors who heard him at the Illinois high school conference at Urbana last year.

The class of '31 has forty candidates for graduation, exceeding by fourteen the largest number ever before graduated from one class. From their freshman year the members have been active in athletics, in the musical and agricultural departments and other organizations while they held their own in scholarship.

Masonic hall. Play will start at 2 o'clock, and a general invitation is extended.

Services at the M. E. church will start at 8 o'clock each Sunday evening in the future in place of the former hour of 7:30.

The Ladies' Aid of the M. E. church will meet at the church parlors this afternoon.

Pentecost services at the Lutheran church will be held in German at 10 Sunday morning, and English at 8 in the evening.

### Macao Well Peopled

Macao, a country under the Portuguese government, is one of the most densely populated countries in the world. It has a population of 74,968, and the population per square mile is 18,967.

## ANTIOCH BASEBALL TEAM DEFEATS FOX LAKE IN 1ST GAME

The Antioch baseball team is off for a good start for the season, having won from Fox Lake in the first game Sunday, 19-5. A remarkable demonstration of pitching was shown by Brown, and Red Murrell made a beautiful running catch in the fifth inning, to the tune of another out for Fox Lake. The one homer of the game was socked by a Fox Lake man. The first home game will be played with the Milburn A. C. Sunday.

### Movable Dates

Because the early Egyptian calendar allowed exactly 365 days to a year, a festival observed on a fixed date would occur a day earlier every four years, until in the course of 1,460 years it had been observed at every season and was back at the starting point.

My, I would like to be  
a editor! Nothing to do  
but read all der  
latest funny stories!

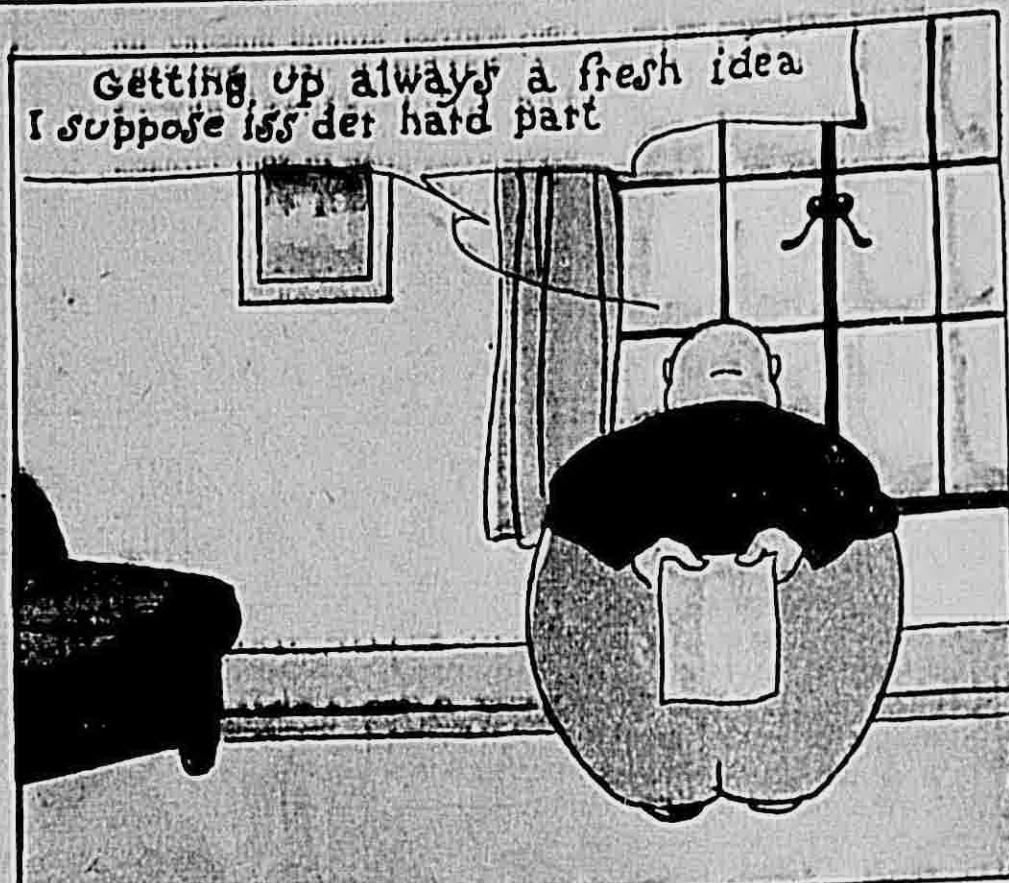

# The Outline of Oscar

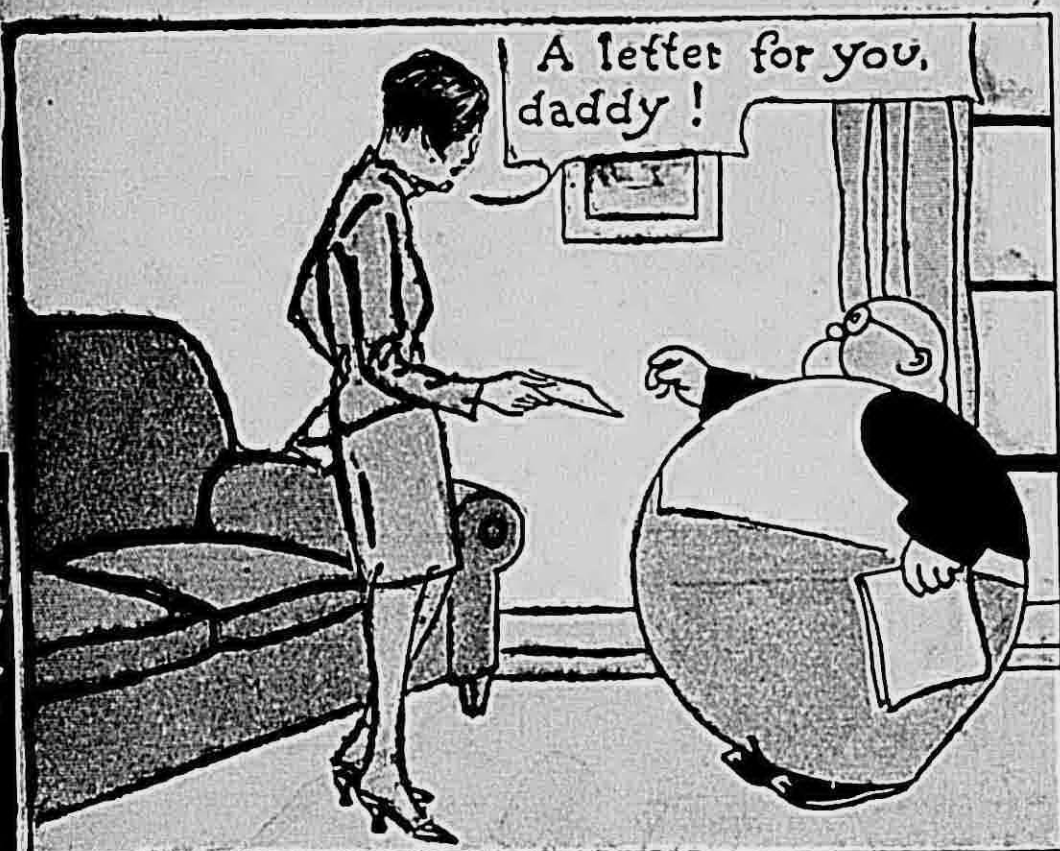

Heh-heh-heh-heh!  
Dose fellows vot makes  
jokes for der funny papers  
iss clever!

I often wonder how they could  
think up dose new ideas all der time

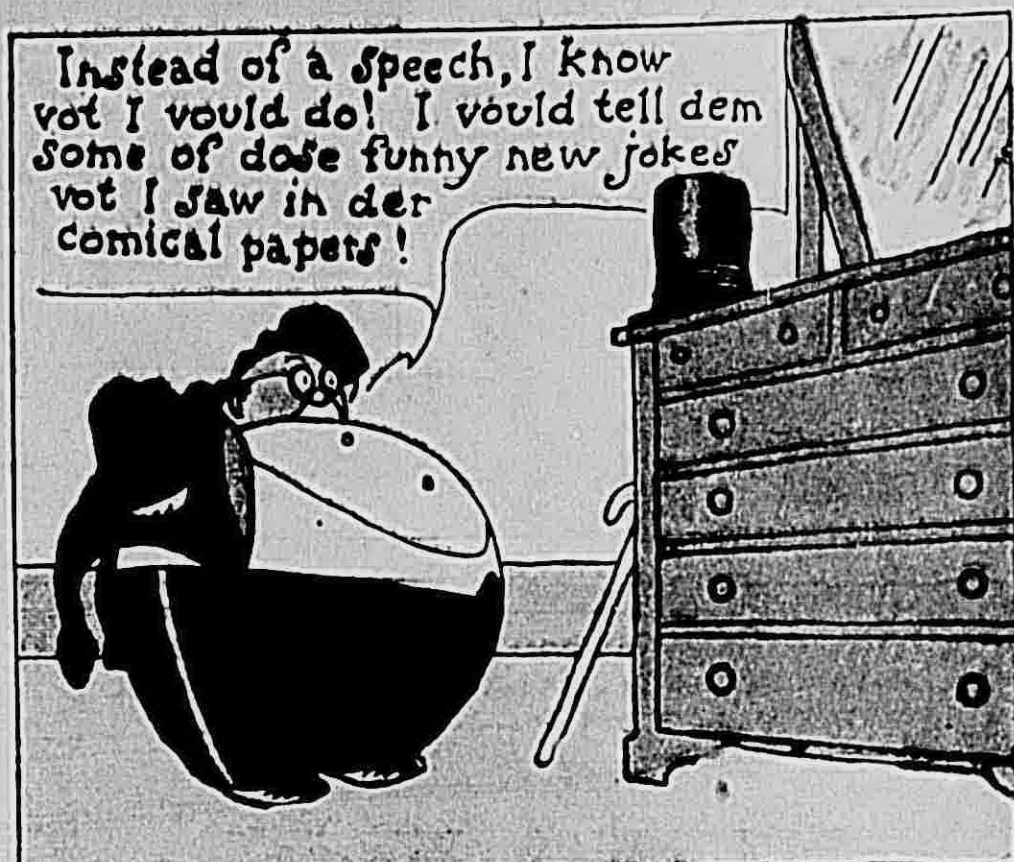

Getting up always a fresh idea  
I suppose iss der hard part

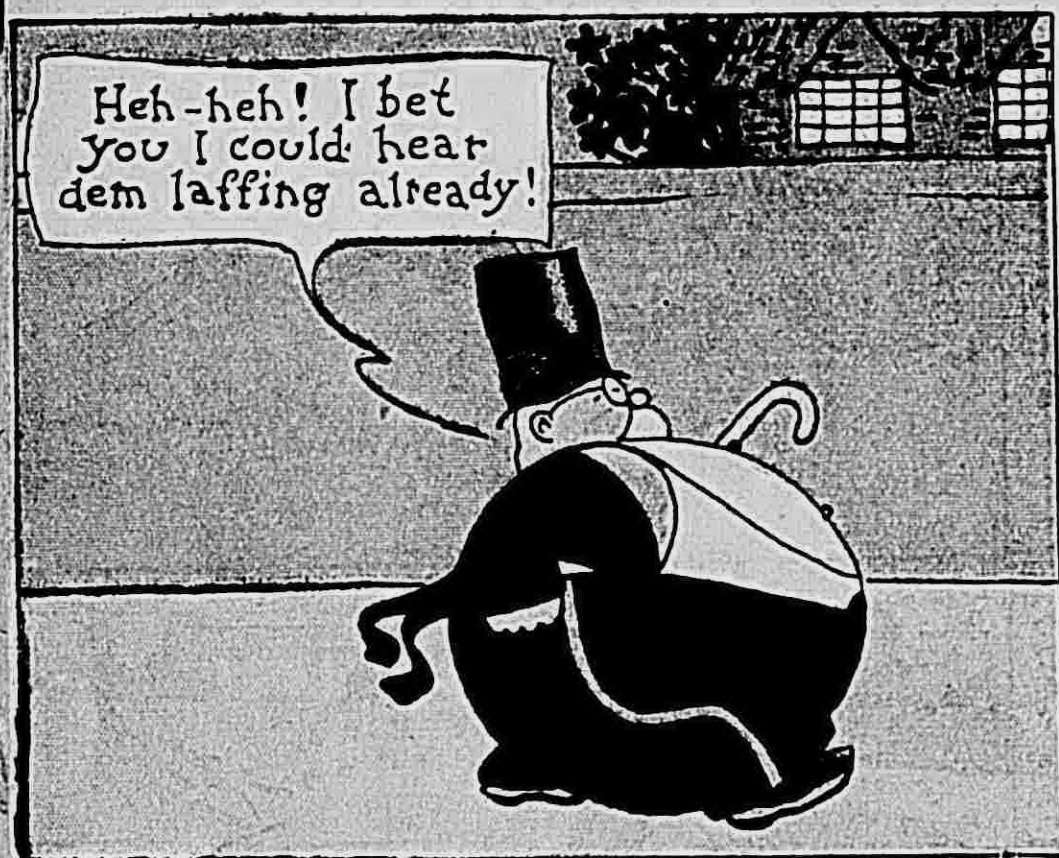

A letter for you,  
daddy!

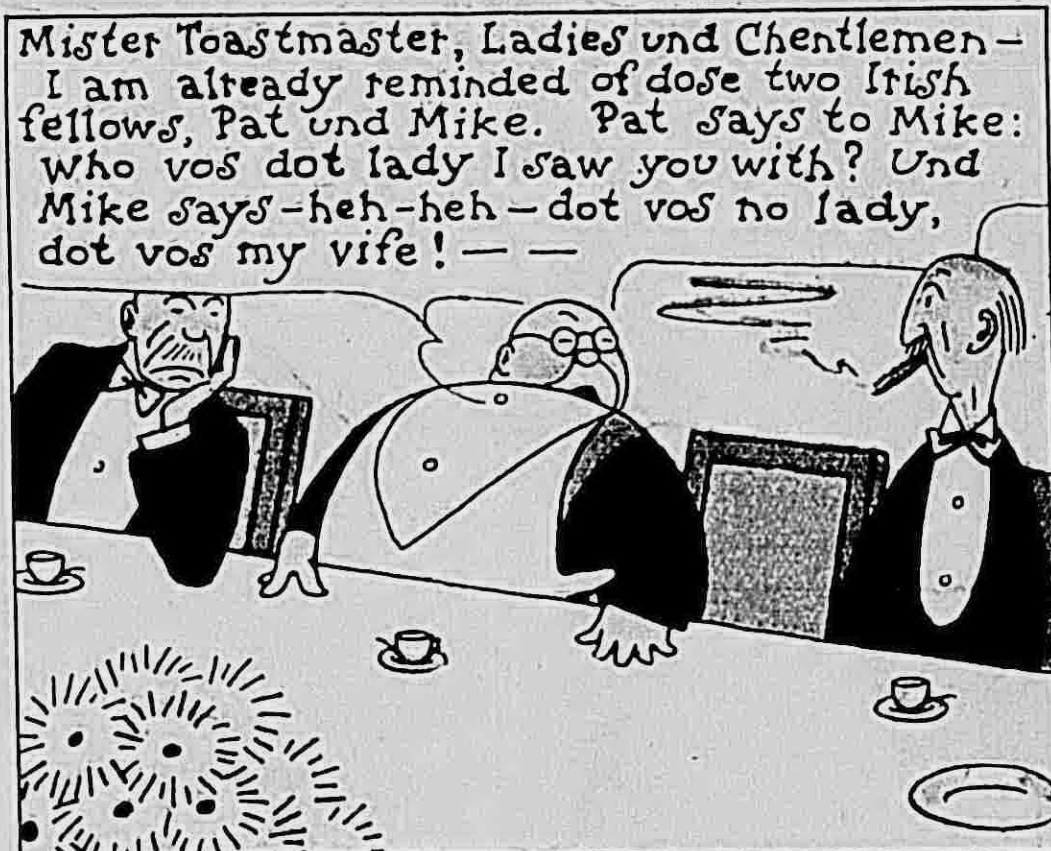

Oooh! Comes a invitation to a  
banquet—and I would have to make a speech!

Instead of a speech, I know  
vot I would do! I would tell dem  
some of dose funny new jokes  
vot I saw in der  
comical papers!

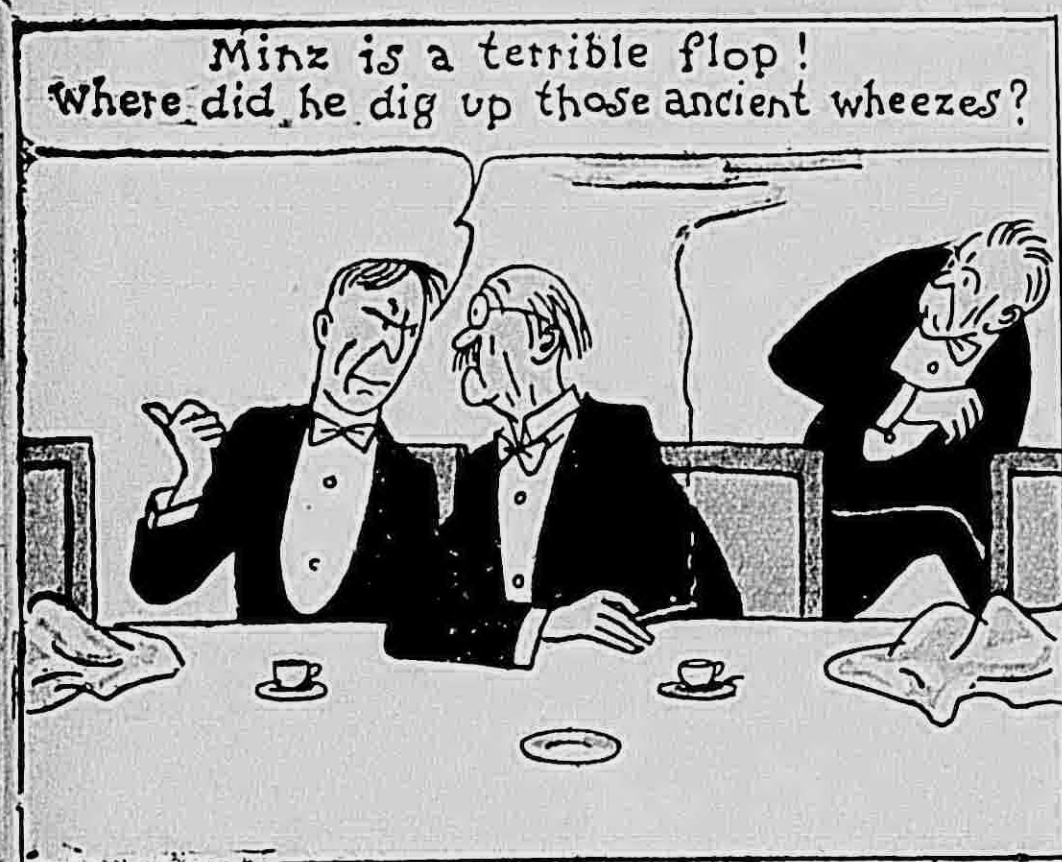

Heh-heh! I bet  
you I could hear  
dem laffing already!

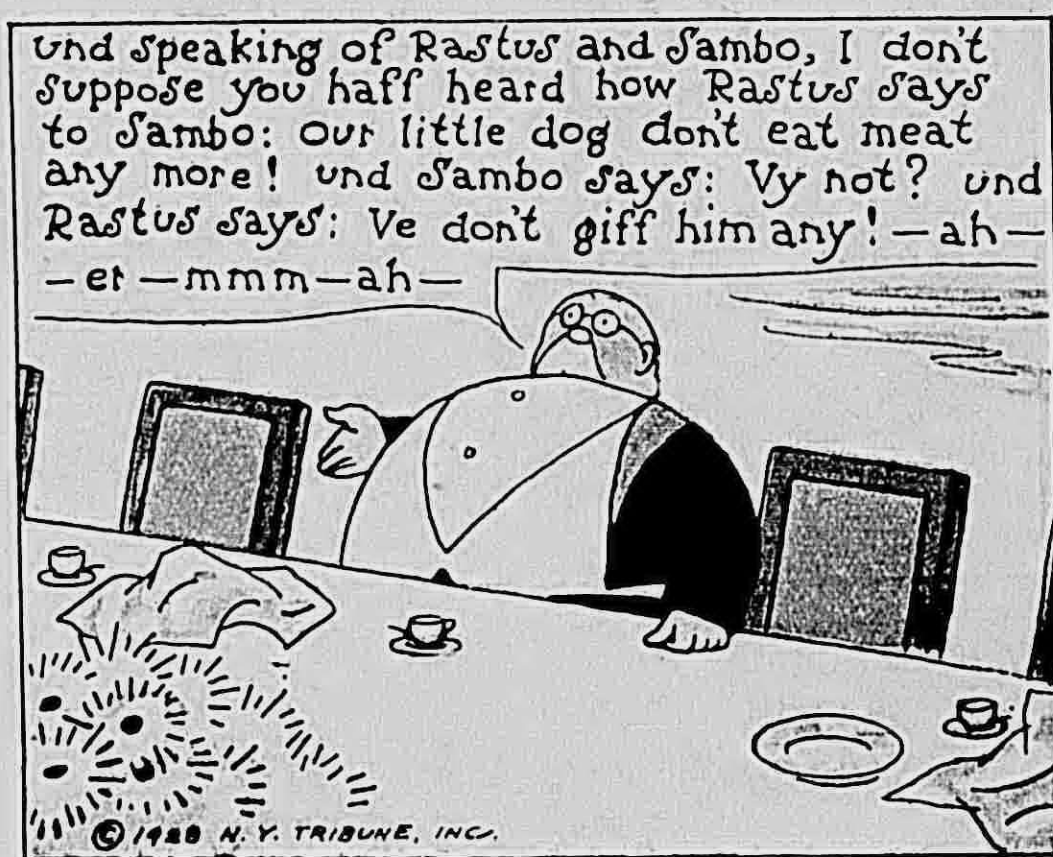

Mister Toastmaster, Ladies und Chentlemen—  
I am already reminded of dose two Irish  
fellows, Pat und Mike. Pat says to Mike:  
who vos dot lady I saw you with? Und  
Mike says—heh-heh—dot vos no lady,  
dot vos my vife! — —

vich calls to mind der story about Rastus  
und Sambo, how Rastus says: Sambo, I bet  
you you are so dumb you don't know  
George Vashington iss dead! und Sambo says:  
George Vashington dead! I didn't even know  
he vos sick! — — er—mmm—

Minz is a terrible flop!  
Where did he dig up those ancient wheezes?

Und speaking of Rastus und Sambo, I don't  
suppose you haff heard how Rastus says  
to Sambo: our little dog don't eat meat  
any more! und Sambo says: Vy not? und  
Rastus says: Ve don't giff him any! — ah—  
— er—mmm—ah—

Nobody laffed!  
I should haff told dem  
der good old  
favorites vot  
effybody knows!

MOTHER MAY  
I GO OUT TO  
**VOTE?**  
YES MY DARLING  
DAUGHTER—  
ONE REEL—

AND WHAT  
CAN I DO FOR  
YOU, LADY?

I WANT TO  
VOTE—

ALL RIGHT!  
WHAT'S YOUR  
NAME?

IDA NOE—

WELL WHO  
DOES?

WHO DOES  
WHAT?

KNOW YOUR  
NAME—

WHY, I DO!  
IDA NOE—

HELP!

# TEN FATHOMS DOWN

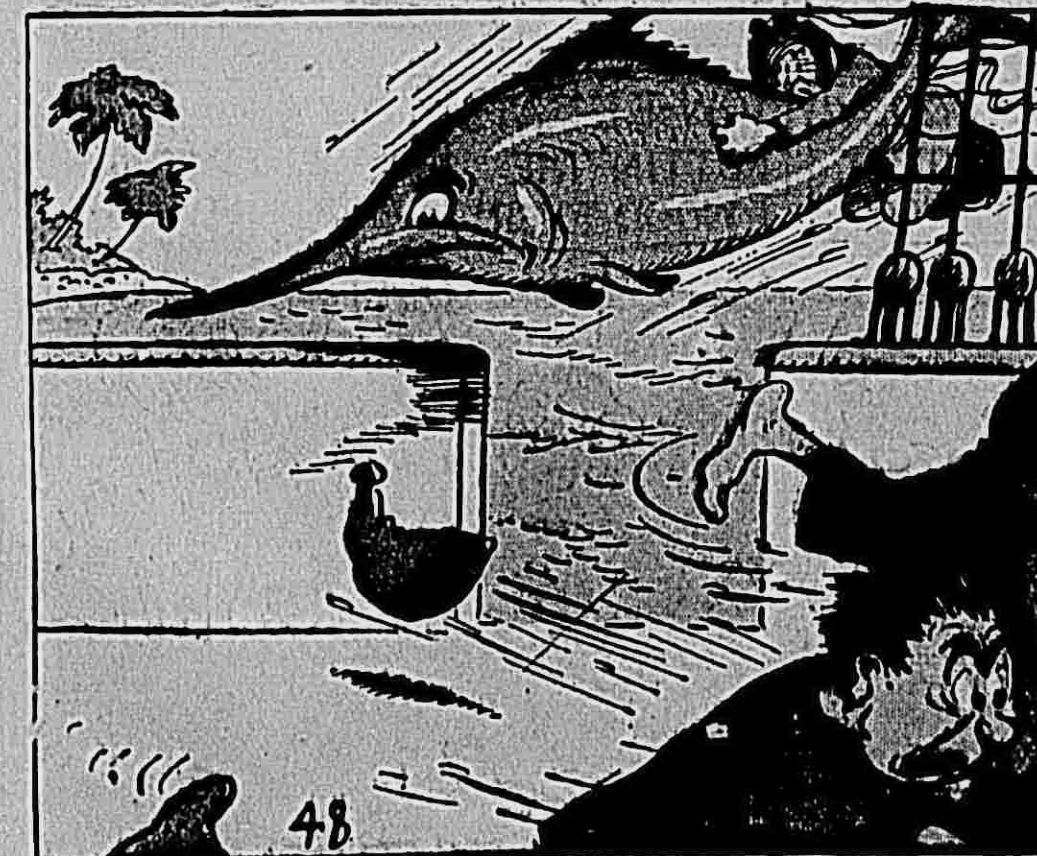

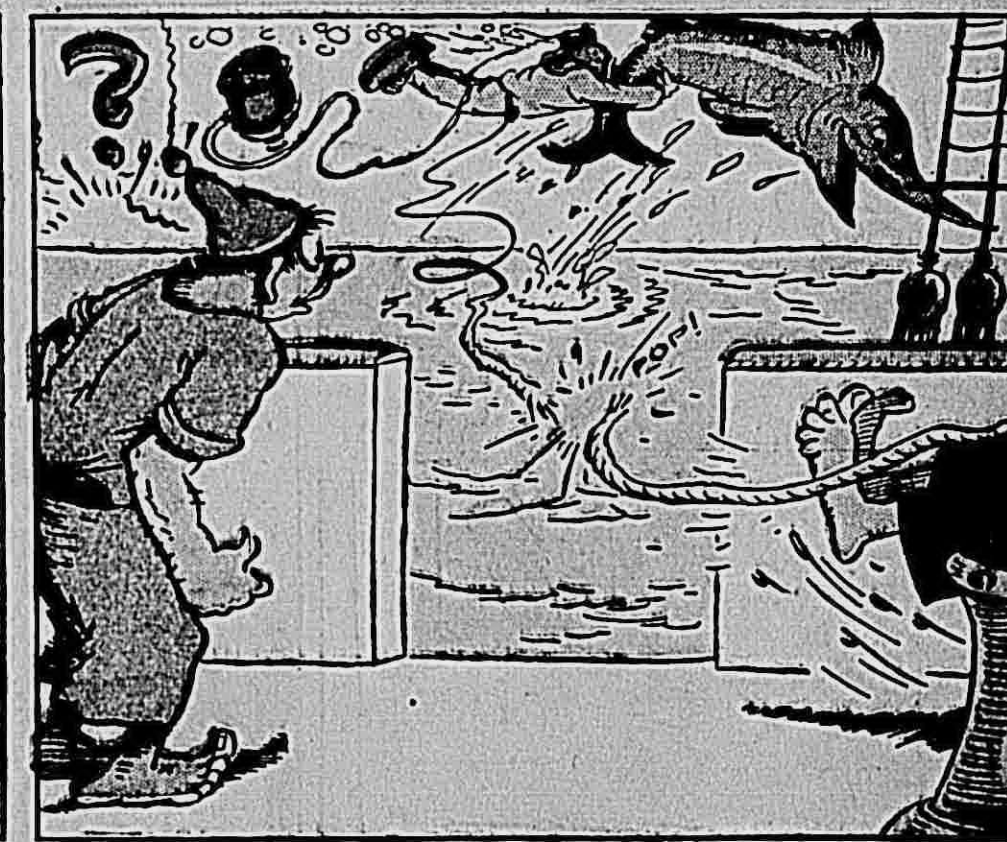

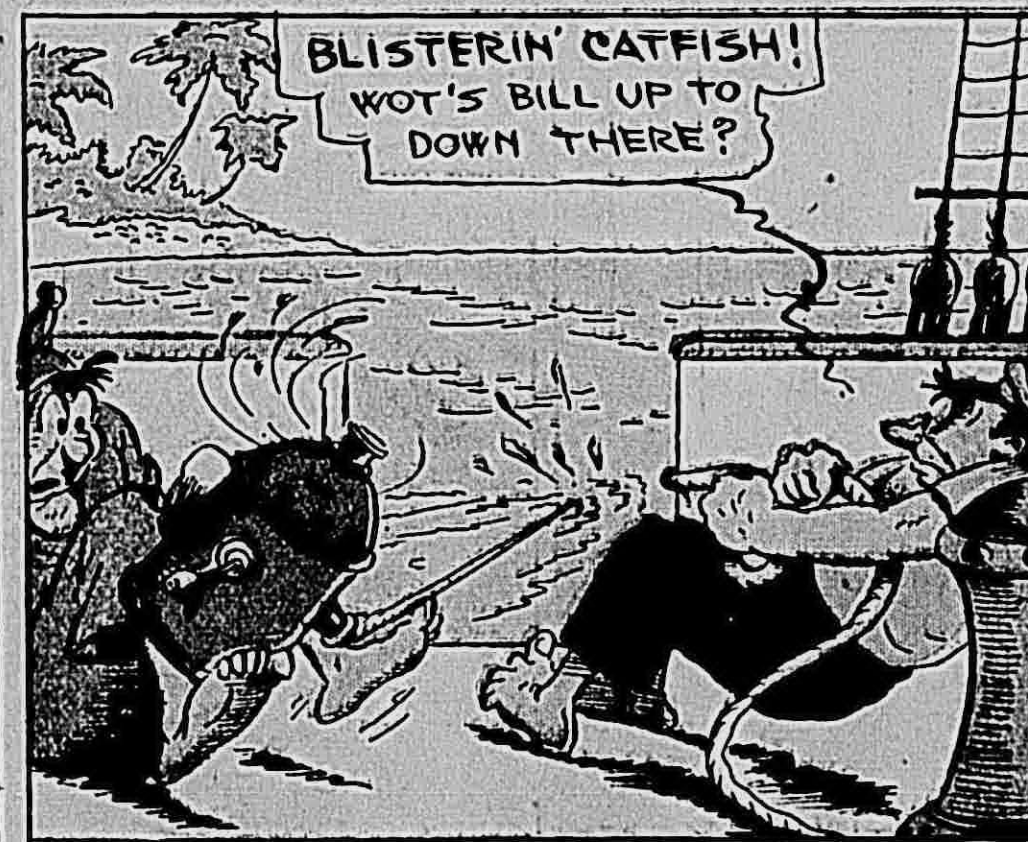

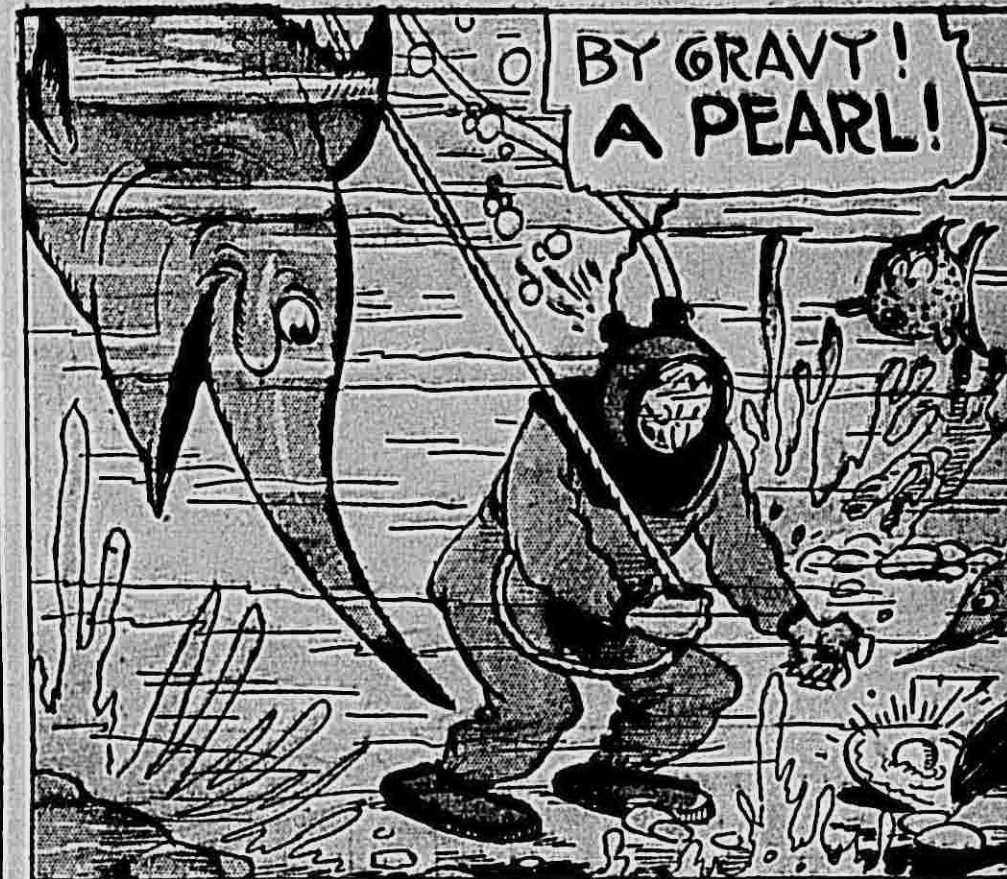

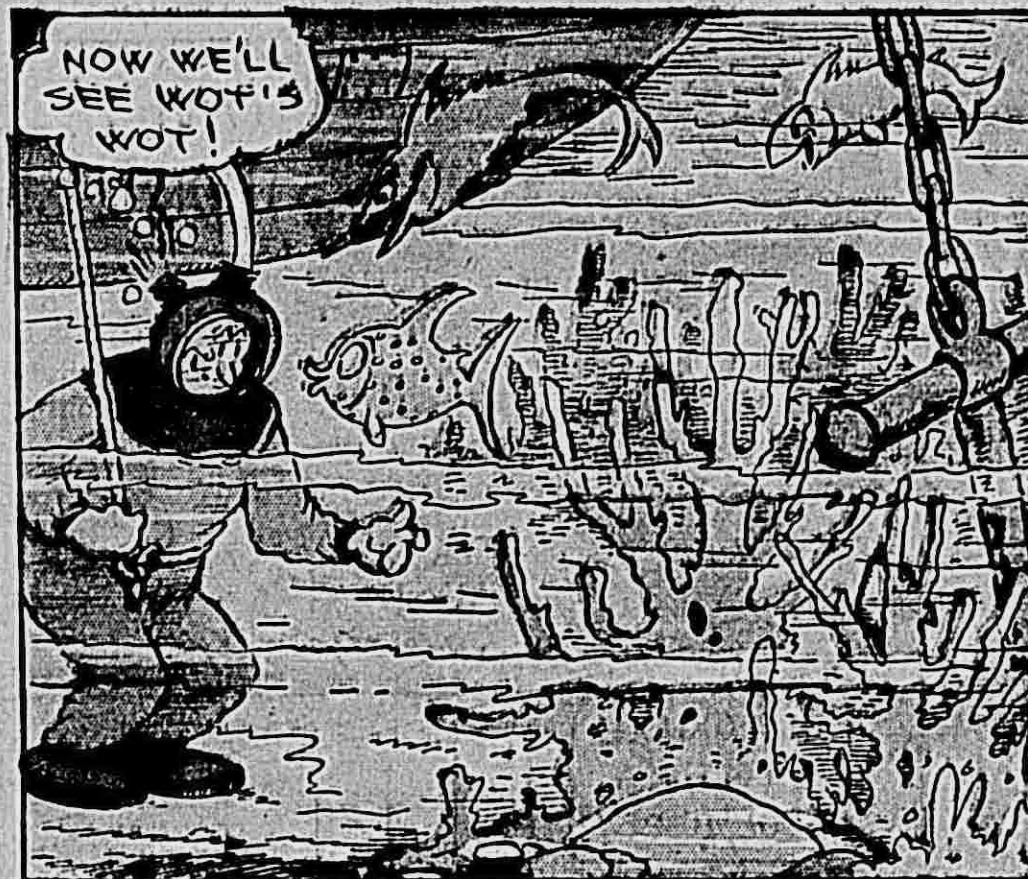

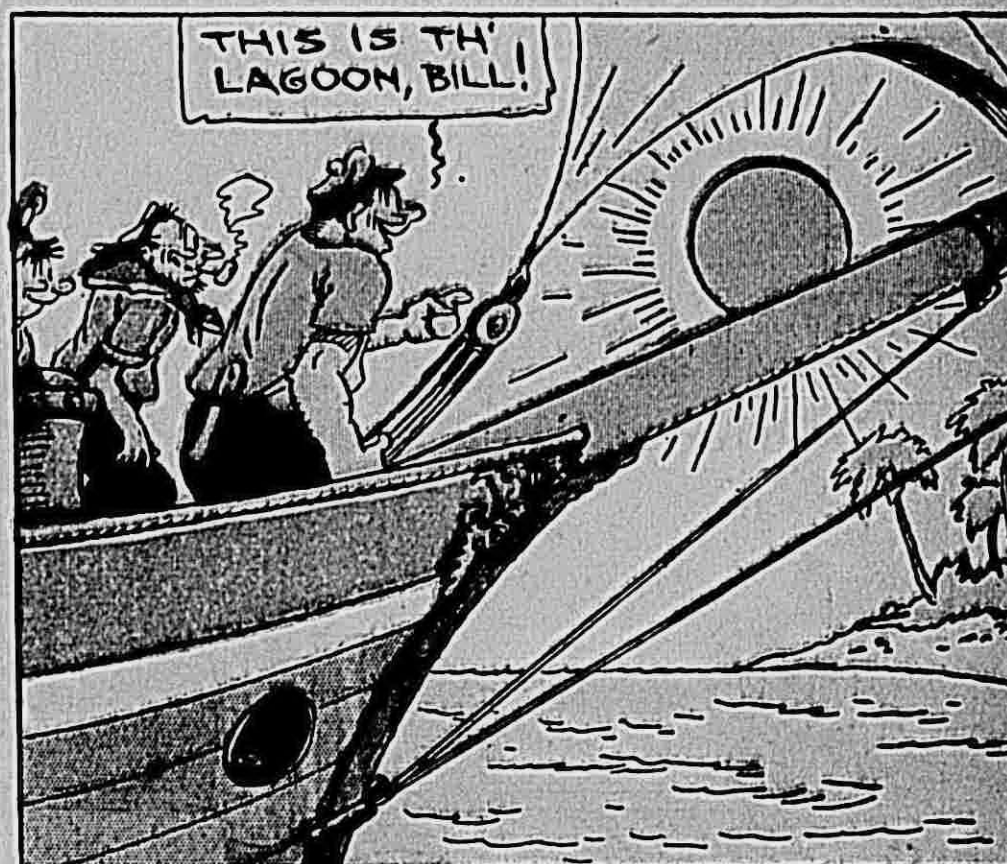

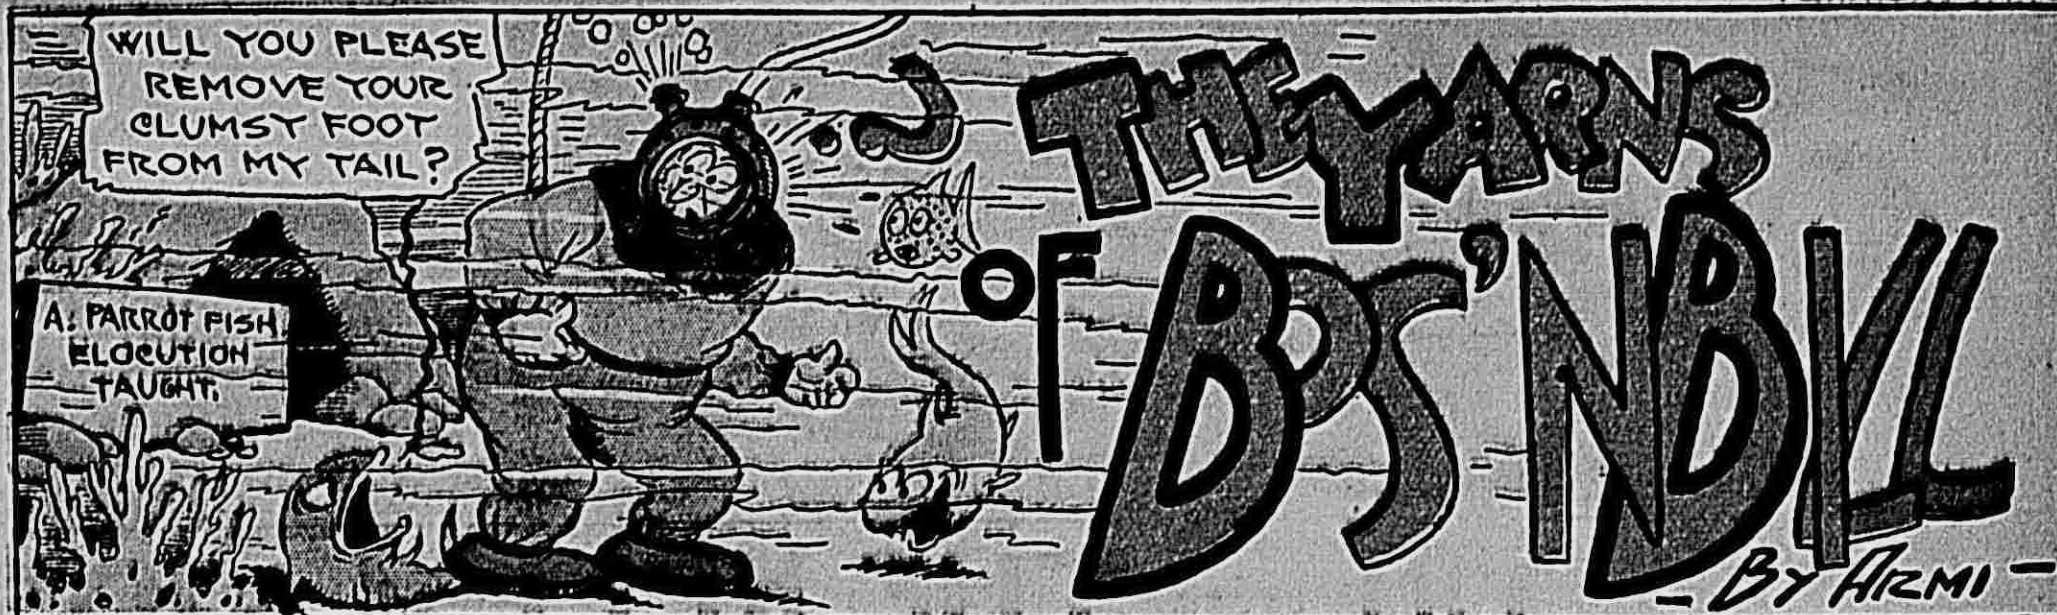

One night, in my watch below, when I was one o' th' crew of a tradin' schooner runnin' between Sidney, Australia, and th' islands of th' South Pacific, Spike Muggles, a shipmate, told me a strange tale about an island, a secret lagoon, and — pearls! Spike said he had been on th' island, and that th' bottom of th' lagoon was covered with pearl-oysters as big as a plate. By crackey, while he was yarnin' I began to see pearls as big as apples, worth thousands of dollars each. When Spike suggested that we buy a little schooner, and go after those pearls, I told him 'I was for it.

A few weeks later, Spike, Tony, th' cook, and I stood in th' bow of our little schooner. Right ahead was wavin' coconut trees on an island. We glided through th' break in th' reef and dropped anchor in a placid,

blue lagoon. In a few minutes I was in a divin'-suit and on th' bottom of th' lagoon. All around me glided strange fish colored like a rainbow. Green, red, and black seaweed swayed in th' water. And then, I saw th' — PEARL! I shot up through th' water, hangin' onto some big critter for dear life.

Still hangin' onto th' thing, I shot up into th' air, and then I saw that I was ridin' a whoppin' big swordfish. Down we went again to th' bottom of th' lagoon, then up into th' air again, and I'll be dingbusted if that swordfish didn't go scootin' for th' schooner. Wham, went his sword-bill into th' mainmast. When Spike and Tony got th' head-piece off th' divin'-suit I saw Mr. Swordfish hangin' to th' mast.

Watch for my next yarn about this island.

WIVES OF A FEATHER —

BILL, I'M VERY SORRY, I KNOW YOU DIDN'T ENJOY YOUR MEAL — I'M GLAD YOUR WIFE WASN'T HERE —

WHY, JIM, I DID.

NOW, I KNOW BETTER — YOU DIDN'T — MY WIFE IS A CRAB.

YOU COULDN'T ENJOY THE MEAL WITH HER THROWING DISHES AND CUTLERY AROUND.

NOW JIM, I DIDN'T MIND THAT AT ALL

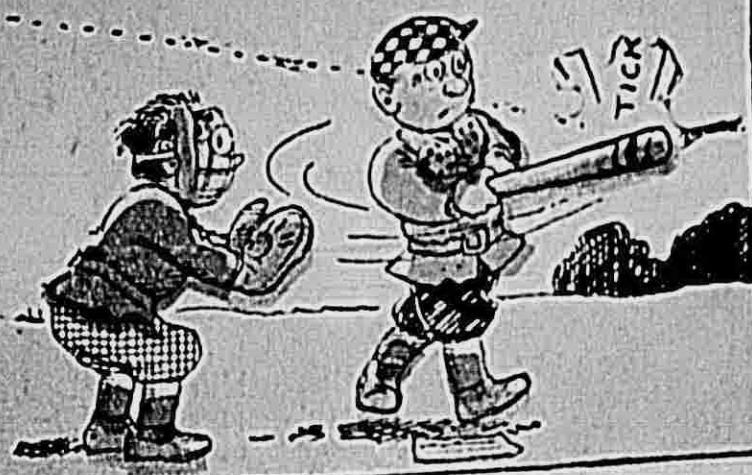

— I FELT VERY MUCH AT HOME —
